Thread: [Free SMTP Setup for BULK Mailing Business , Only For Opted Subscribed List](#)

Digital Stacker - June 22, 2021, 1:09 am

Although most Of the users try to do find services to start mailing businesses for their products, I wanted to invite all interested one in mailing work.

No CC, no BCC, no "undisclosed recipients"

Everyone gets their own copy - they can't see who else is receiving the same e-mail

Email Newsletter Builder

Create stunning e-mails as easily as you create various publications in MS Publisher

Built-in Editor

An easy & convenient editor to create an e-mail from scratch or from one of the built-in templates

Upload your own HTML files

Created an e-mail in DreamWeaver or even Word? Upload your file and we'll send it to you

I do Help in collecting opted lists by creating HTML Forms for your website and subject (Free Hosting and domain included with exclusive of campaign cost.)

In Mailing :

Unlimited Sign-up Forms

Create as many forms as you want to convert visitors into subscribers

Automatic & Hosted Forms

Add a snippet of code to your site for embedded forms, or link to a form hosted by us

Confirmed Opt-in

Require visitors to confirm their e-mail address when subscribing to your list

Build advanced forms easily

Create drop-downs, checkboxes, text areas, etc. to ask anything you want

Private messaging for Your account and setup make sure I Don't Promote Spam Service, Only legit and opted contacts campaign should be allowed.

Message over telegram for Fast Response : [lifelineindustry](#) or Comment below For Email marketing Campaign.
