Thread: [\\$200+ DAILY ==> TELLY'S MONEY MAKING METHOD \[VOUCHED\] \[ACTIVE COMMUNITY\]](#)

telly - June 22, 2021, 10:25 pm

Overview

- not autopilot but requires little to no effort
- no bullshit trash methods like some being sold on here
- can work anywhere around the world

TOS ([Click to View](#))

will refund if something is stopping you from doing this method or I am unable to provide what I promised

will not refund if a third party intervenes

this will not be leaked at all, if it does get leaked you are just hurting your gains

the method will not be talked about at all

if you're annoying I won't sell to you/refund you (my time is just as precious as yours, even though I'm mentoring you, I'm not your slave)

FAQ

How long does it take to make hundreds a day?

Depending on your budget it can take a couple of months if you're starting at \$150 or a couple of days if you have a couple hundred \$ or so.

What is the method?

basically think of it as Runescape gold selling

you can buy gold and resell

or you can farm it yourself for less money and then sell it

but is unsaturated and more profitable compared to Runescape

Will it get saturated?

This method has been out for years and hasn't got as saturated as other games, even if it does get saturated I will proxy sell for you on a site that is unsaturated and really profitable so do not worry.

Mentorship includes me proxy selling for you for very high rates, you can make your money back in a week. Even a day!

TO PURCHASE MENTORSHIP REFER TO HERE:

IMPORTANT: I RECOMMEND A MINIMUM OF \$150 INVESTMENT BUT HIGHER IS VERY RECOMMENDED TO MAKE GOOD MONEY FAST

Fair enough, the mentorship you were selling looked intriguing and had some positive feedback. If you're doing a VC let me know, happy to leave a review otherwise GLWS :)

shopifyguru - June 23, 2021, 12:37 am

If you have any vouch copy I will take it and leave the best of the reviews if it works :)

xc0z - June 23, 2021, 1:08 am

Interested in taking a vouch copy and I don't beg for VCs, you can go through my posts to see how critical I am of every service. I will only post a review once I have earned and not just a simple overview of the method; they're pointless. Please lmk, glws.

random123123 - June 23, 2021, 3:05 am

I'll take a VC and leave the best review possible without giving anything away, whilst being honest ofcourse with it. No need for mentorship, i'll just take the VC as in the book itself and leave you with a great review!

Lmk and good luck with ur sales

OP had nice reviews in last thread and personally I do botting on other game so was just wonder what is all about and decided to buy ebook.

Well, it's well written and I think so that main things are covered which will put you on the track to make money but I have no clue about this game, I heard about it and it's very popular game but I never play it so will have to make additional research and then decide will I make money or not but most likely yes as game is very popular and with OP help making money should be ez.

Will make update in future if I start with that, GLWS :)

Thank you!

Firstly my apologies to the OP who provided me with a vouch copy. There was some delay in getting around to this review due to an issue I had with some IRL issues as well as an injury to my back.

I haven't had the chance to actually execute the method/s that are outlined, however, I have done a "dry run" of the method and can confirm that the marketplaces used are legit and you can certainly make money by doing this. The PDF itself was outlined quite well and was easy to follow and as OP has previously mentioned he can proxy sell on your behalf and lists a few tools and configurations to automate some if this process.

All in all, very good method with great potential and I'm looking forward to getting started with it once I have some capital. Apologies again for the delayed response.

its actually \$200 for mentorship, its that much cause the proxy selling is highly valuable since I sell for a higher profit margin. the proxy selling comes with the mentorship. but other than that u dont need it.

It really depends on the investment so to recover from the \$200 mentorship, I would recommend around \$200 investment for reselling or \$150 for farming. I can always help you out in purchasing items but can't determine how fast they will sell on market.

Looks interesting!

Can I send this off to a VA? Is it easily understandable? Where is the money in the meantime – meaning, could a VA run off with my money during operations? How are you getting paid? I see PayPal in the screenshot, is BTC possible?

Let's say I invest \$5000, how much could I expect to make per week? With that investment, how much work is involved every day and initial setup? Also, with that amount, is it difficult to find buyers?

you dont need a VA you can use a vps and have it farming 24/7. I get paid in crypto and just exchange for paypal, but most of the time you'll be using crypto. Investing \$5k is huge and you can make a lot but I can't really give an estimate as the most I've invested was \$500 which gave me around \$400 return. For initial setup it takes like 1 hour or so and then it'll take a bit to get accustomed with the game items and learning how it works. After that its smooth sailing, most of my students now just purchase items then have me sell them in 30 mins or less. It wont be difficult to find buyers as I have a discord with around 500 members and I can give you a role which enables you to sell exclusively to them.

So I got the vouch copy a couple of weeks ago, due to personal reasons I was out the whole week and then had a lot of work during the next one, so I only managed to get time to write the review today, sorry OP.

First of all I can vouch for OP, he seems like a really nice guy and knows what he's doing. The ebook material was completely new to me, since I never done any method/worked in that are, but it seems really interesting and profitable. I haven't had time to do the method yet because of other projects but I'll surely do it soon and leave the proofs of earnings here. I'm quite sure you can make money with the info in the ebook.

If you have the money, I would suggest investing in the mentorship since this have a good potential and you'll probably see the ROI pretty soon, but if not, by the ebook and try to execute it yourself, for the price it's a steal.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
