Thread: [My sales thread is broken?](#)

I haven't edited this thread in a while and last time I edited it, I didn't change anything other than the "Updated On" date at the very top. However, you can see the user "Money Pls" has had their vouch quote (from the BBCode) somehow nested in a list with a broken quote (you can kinda see the quote text overlapping)?

You can see from my thread's BBCode, the vouches are at the BOTTOM of the thread, and 90% of my thread's content isn't showing at all.

All below BBCode isn't showing on my sales thread at all, but instead is replaced with a broken quote BB tag.

It works perfectly fine if I just go into the "Preview" instead of looking at the actual posted thread. Here is what the thread SHOULD look like:

Is the screenshot of the bcode is how you see the thread? Because I see your thread fine but without the screenshots.

OnlySuite is an extremely complex OnlyFans bot that even gives you the ability to automatically respond to messages. You supply the bot with a list of possible replies (a good list comes with the bot for [color=#2ECC40]FREE[/color]).

This allows your account to automatically chat with OnlyFans users that message you so you don't have to! It sends realistic replies, and doesn't open the messages that it can't figure out a valid response to. [color=#00FFFF]No one will ever know it's a bot![/color]

Something is really broken there. You can see that if you quote him you see more bbcode that is not in the actual thread.

Also this:

Yeah something is 100% broken 90% of the thread's content and all the screenshots don't appear

flavoral - June 25, 2021, 3:05 am

If you can wait till [Omniscient](#) or [Xerotic](#) look into it and try to duplicate the issue in case there's a major issue that need to be fixed that might better.

Did it not work? When I replied here with the thread example I shared it looked completely fine.

There was a JS/CSS related bug that was mentioned in this thread:

<https://hackforums.net/showthread.php?tid=6160246>

I wonder if it's somehow related.

Xerotic - June 25, 2021, 7:19 am

Taking a peek.

EDIT: Fixed.
