Hey All ?

I'm bringing this to you for three reasons:

1) I am thankful for the community's support in my recent dispute and overall the help and encouragement is great. I'm glad to be here.

2) This can make you some money passively, you can withdraw in crypto and deposit the same way. EZ PZ. It is free, and publicly available but might be hard to find for some people.

3) I wish to spread this, as I can potentially get cashback (does NOT reduce your earnings) from your deposits. If you do not wish to do that, you simply can choose not to use the link and voucher code contained within the PDF.

I am part of a group on Discord that does this, and they are all making gains (depending on their initial investments). If you guys wish, drop me a PM and I will invite you. No sales, just a group about this, completely free.

I urge everyone to follow this strategy for your own safety:

- Invest X amount
- Earn till you can get your initial investment out
- Re-invest your earnings
- In X months get as much money you want out

This way you'd not lose anything in the long run.

This is not a method to get rich quick, it is free. As I said, you can opt out of the voucher and the affiliate link. This is NOT a ponzi scheme, you can earn money without inviting anyone. This is also why I'm not pushing for you to get on with the affiliate / voucher. Just saying, the voucher helps to make a bit more, but you will need to pay that amount back (still some free money). If you don't want to, that's perfectly cool.

I hope you found this helpful. ?

Feel free to ask any questions herein so that others may be able to see.

Thanks everyone, happy earning!

I have been there doing it. So far no harm only profits.

Nice method. I think PPD sites should be shared in referral though.
