Thread: [Ewhore verification on crumpled paper, please help](#)

inklerino - June 25, 2021, 12:51 pm

I'm trying to get an ewhore verification on "crumpled and straightened" for reddit losers. I have pics with blank papers on my pack but don't know how to make them seem that way ? can anyone help? As in maybe direct me to a tutorial, or a free pack with verification pics like that, or, if you offer paid photoshop services, let me know how much it is.

Thanks bros ?

The "crumpled and straightened" effect is a bit tricky but should be possible with Photoshop
