Thread: [\[\\$35\] Create Unlimited Premium Logos | + How To Profit From Them](#)

Stratosphere - June 27, 2021, 6:16 am

Using This Guide You Will Be Able To Generate Logos For Any Business/Team/Personality You Could Ever Need.

The Logos Are PNG, High Quality, and Transparent, ready to be used for social media, merch, or any kind of advertisement.

Generating The Logos is fast and you don't need to sign up for anything. The generated Logo normally costs anywhere between \$30-\$90. You can edit the text, colors, font, pictures or anything you want within the logo, and there are thousands of templates to use.

I have also included some small ways to profit from these logos, but there are many more ways to use these logos than just the ones I have included.

Here are some examples (with transparent background)

I can ensure you the method is really easy to use (even if you got no GFX experience). You can create various of different logos. There are tips on how to monetize them but I don't think it will be hard for you at all to find ways to monetize these logos yourself as many people online are in need of vouch copies. For the price of \$35 this is a really useful guide as it teaches you how to create something with a consistent demand. I recommend to everyone to get this method. Good job OP !

Simple and straight to the point, but has some very good ideas to make money from this.

Not much to improve on straight forward approach to this ebook. Easy to read and understand.

Information [4/5]

Absolutely a working method that will allow you to get many logos for free. He explains enough to

understand how to make this method profitable.

Actual useability [4/5]

Op's method to sell these logos is absolutely possible you can sell these almost anywhere and make a return on your investment in one or two sales.

The only issue I see is a lack of true customization if buyers are very specific. You have 1000s of logos at your disposal that would cost 3x this method's price.

Posting here to check back in later. I'll probably get this tomorrow.

What would I actually be buying though? Like access to a website that generates these, a program, or a cracked code for access to a site that creates these?

Without giving too much away, it's a guide on how get logos from a premium site without having to pay the premium, basically a small exploit. No account or sign up needed. Can generate as many as you want and only takes 5-10 minutes to do.

Normally to export the logos it costs anywhere from \$30 - \$90+ depending on what sales they have running

How long have you personally been using this method, and do you offer and type of warranty for how long it will work?

Stratosphere - June 29, 2021, 10:15 pm

I've been using for about a year, but it has been working for 2+ years. No warranty sorry.

I'm interested in this are you able to generate unlimited logos, or is it a site that generates them and you pay for each logo? Cheers.

It is a paid site, but you are bypassing the paid part and getting them for free, thus you are generating unlimited. You can edit and tweak them as much as you like within the site.

It is not Canva pro.

You don't need to sign up or have an account to the site we are using. The exploit bypasses it.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Can you pm me what premium website this involves? Not sure if that would give away your exploit so my bad for asking if so.
