I have to tell you... there's some very strange things going on... I have had pedophile celebrities try and drag me into fame world with them, so they can position my life and make me look like whatever they want. It's not happening. 4M people have died because of this 'pedophile pandemic' see the song below I found with the Holy Spirit going through me. See what it says... 'BAD PLAGUE' remember Michael Jackson? Yeah... he was a bad guy too.

Celebrities/governments wanted me to be famous, spread evil, scar minds, get children molested, and claim all the 'good credit' for what happens themselves.

My soul is in serious danger. You people have no idea how lucky you are, and how privileged you are to not be famous, have the right information to not be a gay/pedo, and live a normal decent life and have your own families. Trust me, if you knew, if everyone knew, they would not look up to these pedophile celebrity activists, they would not be influenced by their 'coolness' they would know that this pedophile pandemic is THERE fault.

I may die soon, very soon. But the word I leave behind will remain. AVOID FAME. AVOID GAYS. AVOID SNAKES. SAVE YOUR OWN SOULS! YOU HAVE THE POWER!
