Thread: [Easy Method To Make Money Online - Beginner](#)

Thevoice87 - June 30, 2021, 5:20 pm

One of the easiest methods to making money online is a simple middle man technique. Still works but I've moved onto other things.

Step 1. Sign up for both Fiverr.com and Seoclerks.com

Step 2. Find the most popular seo gigs on Seoclerks.com (I'd recommend finding ones that offer a 100% refund in case the customer is not satisfied on Fiverr.) Also, read the reviews of the gig as well too ;)

Step 3. Ask the seller if it's okay for you to resell their services, ask them what the turn around time is and ask if you can use their images or not. If you can't you can make you own very easily using pixlr.com

Step 4. Post the gig to Fiverr.com and make the turn around time an extra day or 2 in the future. When doing the tags see what the top gigs are that are similar to the one you're posting and use their tags along with the category on Fiverr. As for the title see what the top selling gigs are for what you're selling to get an idea of what you should do for yours, be sure it's relevant to the seoclerks gig that you're reselling. Lastly, Fiverr takes \$1 for every \$5 so If the Seoclerks gig is \$10 and you sell for \$20 you will get \$16 and \$6 profit.

That is literally it! Enjoy! :)

Be sure to keep your response rate up on Fiverr as they have a metric system ie. Response rate, review rate etc. If you try it out and have questions just pm me :)
