Thread: [Best way to cashout AGC \(amazon gift card \) ?](#)

SkunT3llo - July 1, 2021, 10:43 am

Hi, what is the best cashout method for amazon gift cards?

Is it better to sell to someone somewhere (~70% of AGC value for BTC), or top up an Amazon account then create another Amazon account, and buy something from yourself, then withdraw money via PayPal?

Thank You in advance ?

Purse.io is the best way to cash them out for crypto as far as I know.

There are many users here that will buy your AGC in the currency exchange section if you want. That seems like a good way to go about it if you don't want to go through some other website.

Thank You, site seems promising and as far as I can see fees are low.
