Hello and thanks for this contest!

Seeing as the rules of the story are kind of vague, I will share a story of how I met my girlfriend of 6 years.

Spoiler ([Click to View](#))

So that was six years ago.

I was kind of looking for new friends, so one night I decided to add a whole bunch of people on Facebook.

And I added this girl who, judging by the color of her hair, had the same interest as me.

So we met once, talked a bit and it was fun, we were friends in good standing.

A few weeks go by and I was biking across town with a good friend of mine to pick up some weed from a dealer (I was 15 at the time)

So while me and my good friend were heading towards the dealers, my phone was running low it was at 5% or something.

Out of nowhere I feel my phone vibrate, it was a text from the new female friend I made a few weeks ago.

She invited me to hang out with her and her boyfriend, and after asking my good friend if he was up for it, he agreed.

So we biked from the train station all the way back to my neighborhood to meet up with her and her boyfriend.

When I arrived, it was a bit cold, the kind of weather you'd put on a coat for.

And there she was, this beautiful, shy girl shivering from the cold.

My friend had this JBL box, so he put on some music at 11:30 that night.

I vividly remember the song we were listening to was "Legend" by Drake.

After a few minutes, I decided to offer my coat to this mystery girl.

I asked her, "Do you want my coat?" and she said no.

I didn't give up, so I just removed all the stuff I had in the pockets of my coat (the grinder, weed, and rolling gear) and just swung my coat around her.

Some time passed, we were just casually talking and listening to music when I suggested we find a place where it was less windy.

So by this time it's 01:00 in the morning and she still has my coat wrapped around her.

We were sitting in some kind of secluded parking lot chilling with the music and good vibes.

So I started rolling a joint, she mentioned that it was the first time she saw weed and the process of rolling a joint.

After smoking the joint with my best friend, he had to leave and so the music went with him.

I also remember my parents being gone that week, so I got lots of messages to come home because my grandma didn't like me being out that late.

I ignored the messages because I really didn't want it to end so soon, so we talked a lot.

At that time I asked her what music she liked to listen to and she liked Red Hot Chili Peppers.

Since it was getting late for us teenagers, they walked home with me still wearing my coat as a cape.

It was now 2:30am and they took me home, and I received a few messages from her friend within about 15 minutes after I laid down in bed after that amazing night.

"She really likes you, I think she's into you," I remember gushing like it was yesterday.

I immediately replied, "Can you give me her number?"

So I got her number, and we started texting for days.

Two weeks go by, and I wanted to meet up with her alone, so I suggested we meet at the same place I met her.

We set a day and time, and I showed up and waited.

Sadly, I waited in vain, so I got on my bike and started looking for her, asking all the familiar faces where she might be.

I hadn't found her that day, but the next day I sent her a message saying it was okay and that I understood she might have gotten scared.

A week later, it was a Friday if I'm not mistaken, and I sent her a message asking if she wanted to come to my house because my parents weren't home.

She showed up at my door, we were sitting in my backyard on the living room couch, and I very hesitantly kissed her on the cheek, I could tell she didn't mind.

So we went inside, I got a kiss on the lips while we made small talk.

That's when I asked her like a little boy, "Will you be my girlfriend?" and thank god she said yes.

I could write 5000 more characters further, but this is literally the story of how I've met my soulmate and partner for life.

Thanks for reading this, I'm basically pouring all my energy into this story at 02:39 AM

~Smexy :)

Thanks for hosting another great contest [bending](#)

I just want to share my story when I got sick last month.

Spoiler ([Click to View](#))<Goodbye June...welcome July

It's been a hard and tough month for me this past June.

I have been hit by Dengue virus and being hospitalized for more than a week.

June 2 I feel cold and it seems I am having a slight fever so I take a medicine pill for fever.

Next day morning I feel good but when the night comes I got a fever again. I feel weird that the fever comes and go for 3 days so I decided to go to the hospital and have myself a check-up.

That Doctor ask me to take some lab test and it comes out that my platelet counts are too low so the Doctor ask me again to do the Dengue Duo lab test and they found out that I am positive to Dengue virus...my 2nd time to catch up the virus. I am not aware of the first one but I have managed to overcome it.

Dengue virus still got no cure as of this moment of time and the 2nd time around you catch this virus is much more dangerous and can be a real life threatening.

Usually you only have to deal on your high fever and must take lots of fluids and water to avoid the dehydration.

June 5 I have been admitted to the hospital and all they've given me is medicine for my fever and put dextrose on me.

I got high fever every now and then specially at midnight and chills are all over my body. It's been a tough battle and really a bad experienced.

The past days I am at the hospital I am thinking of my 2 kids and my wife who is taking care of everything at home. I know she's been really tired of everything but really can't do about it...all I have in my mind is to get myself back on track and hoping that the fever will be gone pretty soon.

The Nurse is taking a syringe of blood out of me 2x a day (morning and afternoon) throughout my stay at the hospital to check on my platelet counts. After 10 days of battling against the Dengue virus finally no fever but I feel so weak.

A day past of no more fever and platelet counts are pretty good, I ask my Doctor If I can go home for I really miss my 2 kids and my wife but he still wants me to stay for another day.

The last day spent on the hospital is kinda weird for I find myself hardly to talk much and I got tired easily but I didn't show it to my Doctor for I do really want to go home already.

Finally the Doctor told me I can go home but I would be back after a week for follow-up check up. When I get home I know I am still weak and needs to get a tons of sleep and rest for the days I got fever I really can't sleep and most of the times I got some hallucinations.

A week of doing nothing much at home makes me feel uncomfortable and still gets tired easily. The day of my check up the Doctor ask me for another lab test and it shows that my Triglycerides are too high that my blood runs not smoothly and my liver have some problem as well that's why I am still feeling weak.

For now I am taking 4 medicines that should be taken for 2 months and after 2 weeks (one more week to go) I need to go for another lab test to check if those problems on my lab test are going down.

Hoping for the best and this is my rough and tough June days of battling against the Dengue virus, hoping for a better month of July.

Keep safe everyone and keep out of the mosquito bites. God bless.>

We were at the edge of the world, staring out into the abyss of the future. With the advent of superintelligence, mankind hit an intelligence explosion that took us to a new paradigm and changed the way that the world operates.

Within 10 years we had created an army of "good" superintelligent agents to counter a rogue agent that could be released into the wild. They are our AI antiviruses. We had solved the problem of aging, all it took was one nanobot injection to reset our biological clocks. Most of us were using a brain computer interface to connect our minds to the Internet. We can download information straight to our brains and communicate telepathically. The government deemed shapeshifting technology and molecular assemblers a threat and keep these technologies in extremely supervised environments so that it would have no chance of escaping into society.

You could say it has been a wild 10 years. We have overcome every obstacle that we've faced, we are the masters of our own domain, and arguably the most advanced civilization in the Universe. Staring into the abyss we are confident and strong, but something always happens. But what though? What could possibly go wrong?

Story: (Not my own but I've changed a lots of the text to make it more custom and special)

Spoiler ([Click to View](#))

An old man was living in the village with his neighbors. He was one of the most unfortunate and sad people in the world. Every single neighbor was tired of him because he always was in a bad mood, he constantly complained about everything.

The longer he lived, the more grumpy and angry he got. People avoided him, because all his bad luck in life became more and more contagious to others around him. It was even unnatural and insulting to be happy next to him.

He was so grumpy and mad that he created the feeling of unhappiness in others.

But one day, when he turned 80 years old, something incredible happened. Instantly everyone started hearing the rumour:

"An Old Man is happy today, he doesn't complain about anything, smiles, and even his face is freshened up."

So the whole village and all the neighbors gathered together, and then asked the old grumpy man:

Villager: What happened to you?

"Nothing special. Eighty years I've been chasing happiness, and it was useless. And then I decided to live without happiness and just enjoy life. That's why I'm happy now."

Moral of the story:

Don't chase happiness. Enjoy your life.

Spoiler ([Click to View](#)) My friend was sleeping over at my house. My parents and brother were all sleeping upstairs while we were downstairs watching tv, playing video games and shit. At around 1 am he asks if this girl can come over (he REALLY wants to get with this girl, and I don't want to turn him down so I reluctantly agree, on the condition that she's quiet.) The three of us are hanging out and I make some excuse to leave the room so my friend can have some alone time with this girl. I'm upstairs in my room when I start hearing loud moans. This is bad news for me, but great news for my friend, he's losing his virginity to a girl he really likes. I hear stirring in the next room and I know that their bout of loud lovemaking has woken my parents. The last thing I want is for my confused father to walk in on my friend fucking this girl in my basement. What do I do? I go to pornhub, click on the first video I see, crank that shit to 100 on my speakers and let it play for the ~three minutes that my buddy ended up lasting. My dad ended up coming into my room, discovering the source of the noise (I even threw in some fapping motion under the covers) and awkwardly leaving. My buddy ended up having "the best fucking time ever bro" but Jesus there were some awkward glances exchanged between my parents and I the next morning.

Spoiler ([Click to View](#))

According to all known laws
of aviation,

there is no way a bee
should be able to fly.

Its wings are too small to get
its fat little body off the ground.

The bee, of course, flies anyway

because bees don't care
what humans think is impossible.

Yellow, black. Yellow, black.
Yellow, black. Yellow, black.

Ooh, black and yellow!
Let's shake it up a little.

Barry! Breakfast is ready!

Ooming!

Hang on a second.

Hello?

- Barry?
- Adam?

- Oan you believe this is happening?
- I can't. I'll pick you up.

Looking sharp.

Use the stairs. Your father
paid good money for those.

Sorry. I'm excited.

Here's the graduate.
We're very proud of you, son.

A perfect report card, all B's.

Very proud.

Ma! I got a thing going here.

- You got lint on your fuzz.
- Ow! That's me!

- Wave to us! We'll be in row 118,000.
- Bye!

Barry, I told you,

stop flying in the house!

- Hey, Adam.
- Hey, Barry.

- Is that fuzz gel?
- A little. Special day, graduation.

Never thought I'd make it.

Three days grade school,
three days high school.

Those were awkward.

Three days college. I'm glad I took
a day and hitchhiked around the hive.

You did come back different.

- Hi, Barry.
- Artie, growing a mustache? Looks good.

- Hear about Frankie?
- Yeah.

- You going to the funeral?
- No, I'm not going.

Everybody knows,
sting someone, you die.

Don't waste it on a squirrel.
Such a hothead.

I guess he could have
just gotten out of the way.

I love this incorporating

an amusement park into our day.

That's why we don't need vacations.

Boy, quite a bit of pomp...
under the circumstances.

- Well, Adam, today we are men.
- We are!

- Bee-men.
- Amen!

Hallelujah!

Students, faculty, distinguished bees,

please welcome Dean Buzzwell.

Welcome, New Hive Oity
graduating class of...

...9:15.

That concludes our ceremonies.

And begins your career
at Honex Industries!

Will we pick our job today?

I heard it's just orientation.

Heads up! Here we go.

Keep your hands and antennas
inside the tram at all times.

- Wonder what it'll be like?
- A little scary.

Welcome to Honex,
a division of Honesco

and a part of the Hexagon Group.

This is it!

Wow.

Wow.

We know that you, as a bee,
have worked your whole life

to get to the point where you
can work for your whole life.

Honey begins when our valiant Pollen
Jocks bring the nectar to the hive.

Our top-secret formula

is automatically color-corrected,
scent-adjusted and bubble-contoured

into this soothing sweet syrup

with its distinctive
golden glow you know as...

Honey!

- That girl was hot.
- She's my cousin!

- She is?
- Yes, we're all cousins.

- Right. You're right.
- At Honex, we constantly strive

to improve every aspect
of bee existence.

These bees are stress-testing
a new helmet technology.

- What do you think he makes?
- Not enough.

Here we have our latest advancement,
the Krelman.

- What does that do?
- Oatches that little strand of honey

that hangs after you pour it.
Saves us millions.

Oan anyone work on the Krelman?

Of course. Most bee jobs are
small ones. But bees know

that every small job,
if it's done well, means a lot.

But choose carefully

because you'll stay in the job
you pick for the rest of your life.

The same job the rest of your life?
I didn't know that.

What's the difference?

You'll be happy to know that bees,
as a species, haven't had one day off

in 27 million years.

So you'll just work us to death?

We'll sure try.

Wow! That blew my mind!

"What's the difference?"
How can you say that?

One job forever?
That's an insane choice to have to make.

I'm relieved. Now we only have
to make one decision in life.

But, Adam, how could they
never have told us that?

Why would you question anything?
We're bees.

We're the most perfectly
functioning society on Earth.

You ever think maybe things
work a little too well here?

Like what? Give me one example.

I don't know. But you know

what I'm talking about.

Please clear the gate.
Royal Nectar Force on approach.

Wait a second. Oheck it out.

- Hey, those are Pollen Jocks!
- Wow.

I've never seen them this close.

They know what it's like
outside the hive.

Yeah, but some don't come back.

- Hey, Jocks!
- Hi, Jocks!

You guys did great!

You're monsters!
You're sky freaks! I love it! I love it!

- I wonder where they were.
- I don't know.

Their day's not planned.

Outside the hive, flying who knows
where, doing who knows what.

You can't just decide to be a Pollen
Jock. You have to be bred for that.

Right.

Look. That's more pollen
than you and I will see in a lifetime.

It's just a status symbol.
Bees make too much of it.

Perhaps. Unless you're wearing it
and the ladies see you wearing it.

Those ladies?
Aren't they our cousins too?

Distant. Distant.

Look at these two.

- Oouple of Hive Harrys.
- Let's have fun with them.

It must be dangerous
being a Pollen Jock.

Yeah. Once a bear pinned me
against a mushroom!

He had a paw on my throat,
and with the other, he was slapping me!

- Oh, my!
- I never thought I'd knock him out.

What were you doing during this?

Trying to alert the authorities.

I can autograph that.

A little gusty out there today,
wasn't it, comrades?

Yeah. Gusty.

We're hitting a sunflower patch
six miles from here tomorrow.

- Six miles, huh?
- Barry!

A puddle jump for us,
but maybe you're not up for it.

- Maybe I am.
- You are not!

We're going 0900 at J-Gate.

What do you think, buzzy-boy?
Are you bee enough?

I might be. It all depends
on what 0900 means.

Hey, Honex!

Dad, you surprised me.

You decide what you're interested in?

- Well, there's a lot of choices.
- But you only get one.

Do you ever get bored
doing the same job every day?

Son, let me tell you about stirring.

You grab that stick, and you just

move it around, and you stir it around.

You get yourself into a rhythm.
It's a beautiful thing.

You know, Dad,
the more I think about it,

maybe the honey field
just isn't right for me.

You were thinking of what,
making balloon animals?

That's a bad job
for a guy with a stinger.

Janet, your son's not sure
he wants to go into honey!

- Barry, you are so funny sometimes.
- I'm not trying to be funny.

Spoiler ([Click to View](#)) I got kidnapped. I was selling weed and they pulled me into a white van and beat the shit out of me and tied me up. Took me to the bank and took all my money. Told me to give them 1 kilo weed and 10K cash. (Which I obviously don't have) They were going to keep me in a basement and torture me and send photos of it to my family until they got the money. When they went back to my house to get whatever remaining weed I had left the police stopped the guy while the other ones were out. I heard the cops talking to the guy and I was able to open the door and jump out. The guy in the van then ran into the police their car and sped away. The cops went after him and I had to go to the hospital. They also found my weed and my grow room. I'm now semi okay. But defo craziest day of my life. I really thought I was dead.

This happened to me a few months ago and [mention=2774521] knows this too haha.

Spoiler ([Click to View](#))

---So this happened 2 months before all the Corona stuff happened back in 2020, I met this guy through [BRAND NAME REMOVED] and we hung out for a bit but ended up fighting and he blocked me right before all the lock-down stuff happened. We had no connections during the lockdown but as soon as everything started to reopen, he unblocks me and apologizes, I had no intention of forgiving him but it kinda felt like my fault too so I decided to give him another chance.

---We hung out and had coffee a couple of times and I did go to his place for a bit and it felt nice. One day, he insists that we spend more than 2-3 hours unlike how we usually do, and asked me if I could sleep over at his place. I didn't like visiting his house due to his mom just staring at me when I entered and the number of cats he had but I said yes.

---We decided to meet up at 10 PM and I asked him to pick me up from the gym, he agreed. The time comes but he got a bit late, ended up calling me at 10:20 but I wasn't ready so I asked him for 5 mins more since I didn't him to come that late. I get in the car and he was super pissed already, I asked him what's wrong and he started yelling at me to the point that I had started shaking and fearing for my life, no one has ever yelled at me like that, as he was driving, I told him to drop me off right there and then, he kept going, I had the police's number at hand in case something goes south,

he eventually dropped me and went on his way.

---As I was about to get in the uber (uber was on the way), he shows up again and apologizes, insists I come with him to his place, (I got a soft heart) I agreed but I was still scared and edgy. As we were about to reach his place, he asks me to apologize for being late, and like a good boy, I did, even though I shouldn't have.

---We get into the bedroom, started watching some Netflix, things got warmer and he was in my pants and I went along, 15 mins late he brought up the lube which was not planned at all, I am a virgin and I didn't wanna lose it this way so I said I can't do that tonight, he got super mad and kicked me out of the house at 3 fucking AM in the morning when I had nowhere to go, I couldn't go back home since I didn't want my parents to get worried, I spent the night at my other friends who luckily picked me up and took me to his place.

Moral of the story: If you feel something is wrong with your [BRAND NAME REMOVED] date, IT'S A RED FLAG, DON'T DO IT.

true story

I was 20 years old in July 2020, and somehow through an invisible chain of events, I found myself in downtown LA near Staples Center tripping on shrooms and riding Lyft scooters on the street by myself. Then, my phone died and the sun started to go down. That's when it got weird... I ran into these random tweakers and this guy pulled out a pipe. I told them i was tripping balls and shit, and I thought i was about to smoke some weed but it was ACTUALLY crystal meth that i just smoked. I threw my wallet and keys on the ground, and they snatched it up and ran off. I dunno why i did that, I just didn't want to feel like i needed Earthly possessions anymore.

After that, I became lost and didnt know where I was. I stood outside a supermarket yelling crazy shit, screaming the n word, and even the security guards were too afraid to approach me. They

called the cops, and soon as i saw the cops pull up to the scene, I took off running and dipped before they saw me. At this point I was lost, I kicked it with a homeless war veteran just talking crazy shit, but at the time he was the only person in the world that I connected with.

I convinced myself I could morph through glass, and all that ended up happening was me walking face first confident as hell that I was gonna morph through this glass. Ppl that saw me definitely thought I was on drugs lol. I somehow made it back to the place i was staying at and got into an altercation with the security guy there because i tried to open car doors that I didn't own in the garage. Like I was tryna get into a Range Rover, a Tesla, A BMW, because i convinced myself through sheer willpower I could unlock the door. I told the security that i was so thirsty and to prove it i drank a handful of hand sanitizer. He still told me to get out and that he was calling the cops.

After I went outside, I threw my iPhone with no case on it at the concrete wall repeatedly to see if I was alive or in a simulation. I told myself if my screen cracked, then I'm alive. If my screen doesn't crack, then i'm in a dead/in a simulation. For some strange reason my screen wouldn't break!! Even after I threw it hard as i can like a baseball at the wall, it still wouldn't crack or break! That got me for a while lol.

While out on the sidewalk sitting down, i kicked it with this random dude who helped me and bought a water bottle for \$20 for me from some random broad that just got out of an Uber. After that, I asked a homeless guy for a face mask and he gave one to me. Those were the only two people to help me during my wild shrooms+meth trip. Anyways, I ended up in a safe place. But all i can say is I feel as if i broke the simulation that day.

Staring out my apartment window, I saw my reflection staring back at me. I wondered if this was my destiny- trying to find happiness. I suddenly felt a sharp needle sink into my flesh. It was a tranquilizer. But before I knew it I started feeling really drowsy. Everything went black... I forced my drowsy eyes open to find myself on the back of a massive dragon and a man in front of me. It was difficult to keep my eyes open as I struggled to breathe.

We are all born free and without inhibitions.

As we grow physically, we are subjected to various influences.

Influences are neither good nor bad, but they build over time.

Before long, many of us unknowingly live our lives based on them.

There is no need to strive, fight, or labour for anything in life per se, because these expressions indicate that we over-attribute importance to them.

All we have to do is to be aware and have the will to have - life will soon be a holiday!

I had a 3 bedroom house in a more shady side of town. I was 19. Decided to have a party at the house and things were going great. Probably 50 people showed up, maybe a little more. There was this girl there, and she was freaking out about losing a diaper bag. Super drunk. Freaking out on everyone looking for the diaper bag. Well all the energy comes to the living room and home girl gets in my roommates face. One of the guys that came to the party with the girl gets on the couch because my roommate is like 6'4" and the dude is short. It was like three.. two.. one.. the little dude on the couch punches my roommate in the face and then everyone starts fighting. I'm in the hallway because I was so overstimulated I couldn't do anything and then I see a guy walk out the back door. All of a sudden the people fighting in the living room run out the front door and then I see the dude who ran out the back door pop the trunk and I immediately run to the back of the house with my late friend. The whole house was shot up and it was just a wild night. A lot of stuff happened in that house.

Envy - July 12, 2021, 12:07 am

When I was young around the age of 13-14, I tried weed (specifically dabs) for the first time with a close family friend and some of my own friends, he insisted I held it in my lungs for 10-15 seconds when after 3-5 I was already having a hard time. Shortly after I got extremely dizzy, and hot flashes - said I was going to the bathroom, proceeded there and pulled my pants down and sat down (as if I was going to shit)...

All of a sudden the feeling of an overwhelming high I'd never experienced had hit me and at this point I was sweating (with my pants down, on the toilet)... I felt so sick I actually pulled myself off the toilet and sat against the wall with my pants down. My close family friend, knowing exactly what was going on in their (he knew I was going to get sick) ... knocked on the door, I didn't answer - so he kicked the door open and there I was laying there dick out and all. I was pretty much blacking out, it was a horrible experience.

P.S. Good luck to everyone who enters!

Quick Love has been sent and +pop has been given; good luck achieving them bendy awards!

Anyone that knows me knows I have countless stories to share.

But this...

Now this is the story all about how,
My life got flipped-turned upside down,
And I'd like to take a minute, just sit right there,
I'll tell you how I became the prince of a town called Bel Air.

Spoiler ([Click to View](#)) In West Philadelphia, born and raised
On the playground is where I spent most of my days.
Chillin' out, maxin', relaxin all cool,
And all shootin' some B-ball outside of the school.

When a couple of guys who were up to no good,
Started makin' trouble in my neighborhood.
I got in one little fight and my mom got scared,
And said "You're movin' with your auntie and uncle in Bel Air."

I whistled for a cab, and when it came near,
The license plate said "fresh" and it had dice in the mirror.
If anything I could say that this cab was rare,
But I thought "Nah forget it, Yo home to Bel Air."

I pulled up to the house about seven or eight,
and I yelled to the cabby "Yo homes, smell ya later."
Looked at my kingdom, I was finally there,
To sit on my throne as the Prince of Bel Air.

Thank you for hosting this very generous contest. I love a unique contest and I am happy to participate. I know it may not have been the sort of story you are looking for but I thought it fit perfectly and was rather entertaining. :)

Story..

Quote:A lovely little girl was holding two apples in her hands.
Her mom came in and softly asked her little daughter with a smile, "My sweetie, could you give your mom one of your two apples?"
The girl looked up at her mom for some seconds, then she suddenly took a quick bite on one apple, and then quickly on the other.
The mom felt the smile on her face freeze. She tried hard not to reveal her disappointment.
Then the little girl handed one of her bitten apples to her mom, and said, "Mommy, here you are. This is the sweeter one."

Count me in.

Spoiler [\(Click to View\)](#)

There was this astray male cat which so strong. My brother and my father were always furious to it because it used to bully and hurt my cats especially the male one. But every time I saw it in the kitchen I feed it, I think the astray cat is hungry every time he is in the house. And after it ate he it left or stay and bully my male cat, so my cat always hides and scared every time it saws the astray cat. Then one night, when we prepared food for the death anniversary of my grandmother, this

astray cat stay longer in the kitchen which it was not used to be. "Hmmm maybe it knows there is much food so it stay", what comes up in mind.

In the morning, the death anniversary of grandmother, I wonder because I still saw the astray cat. So when my aunt who lives in another street arrived I joke at her, " Aunt look at my first visitor," while pointing at the astray cat. Then my aunt was shock when she saw the cat and ask, "Does this always goes in here, and how long?", she checks the cat carefully and she said she knows it. She recognize it because of its curly tail. Anyway, the cat is black with white color, it has huge body and curly tail. So she really recognized the cat because you can not see the kind of cat commonly. Then we ask her how did she knows the cat. " That cat was my cat", she answered. But she is curious why and how it arrived in my place because the cat was thrown away in the other city, which is about 20 kilometers away from my home. What a long travel did it had. She also explained the cat used to eat her chicks and her neighbor's chicks, that's why her neighbor throw it away. My aunt told more about the cat but the interesting about was that when she told us that cat also belongs to my late grandmother. My late grandmother and the cat ate together and sometimes, she gave all the viand to the cat. And when my grandmother died. The cat search her all around the house, until the cat found her in coffin. What cat did when it found its owner was that it sat at top coffin until my grandmother's burial. ?

And in the night prior to my grandmother's anniversary until the anniversary, it stays in my house. Was it a coincidence?

There was a superstitious belief that told the cats can saw spirits, so maybe it did. Hmmm, but maybe it stayed because it found foods.

Anyway everytime I saw this cat or any other cat I fed them because I know they were hungry.

Thank you for reading.

Spoiler [\(Click to View\)](#)

---So this happened 2 months before all the Corona stuff happened back in 2020, I met this guy through [BRAND NAME REMOVED] and we hung out for a bit but ended up fighting and he blocked me right before all the lock-down stuff happened. We had no connections during the lockdown but as soon as everything started to reopen, he unblocks me and apologizes, I had no intention of forgiving him but it kinda felt like my fault too so I decided to give him another chance.

---We hung out and had coffee a couple of times and I did go to his place for a bit and it felt nice. One day, he insists that we spend more than 2-3 hours unlike how we usually do, and asked me if I could sleep over at his place. I didn't like visiting his house due to his mom just staring at me when I entered and the number of cats he had but I said yes.

---We decided to meet up at 10 PM and I asked him to pick me up from the gym, he agreed. The time comes but he got a bit late, ended up calling me at 10:20 but I wasn't ready so I asked him for 5 mins more since I didn't him to come that late. I get in the car and he was super pissed already, I asked him what's wrong and he started yelling at me to the point that I had started shaking and fearing for my life, no one has ever yelled at me like that, as he was driving, I told him to drop me off right there and then, he kept going, I had the police's number at hand in case something goes south, he eventually dropped me and went on his way.

---As I was about to get in the uber (uber was on the way), he shows up again and apologizes, insists I come with him to his place, (I got a soft heart) I agreed but I was still scared and edgy. As we were about to reach his place, he asks me to apologize for being late, and like a good boy, I did, even though I shouldn't have.

---We get into the bedroom, started watching some Netflix, things got warmer and he was in my pants and I went along, 15 mins late he brought up the lube which was not planned at all, I am a virgin and I didn't wanna lose it this way so I said I can't do that tonight, he got super mad and kicked me out of the house at 3 fugging AM in the morning when I had nowhere to go, I couldn't go back home since I didn't want my parents to get worried, I spent the night at my other friends who luckily picked me up and took me to his place.

Moral of the story: If you feel something is wrong with your [BRAND NAME REMOVED] date, IT'S A RED FLAG, DON'T DO IT.

This is the story I will choose as my winner.
