Thread: Private crypting service | Startup, Delay, Binding & more features | 15€ per crypt

kertos - *July 3, 2021, 12:20 am*

I am offering private crypting service.

Private crypt means that you are the only one who uses stub.

If stub will get more than 4 detections in 7 days I am offering free REFUD!

Stub is FUD for at least few days (in my case 5-7 days. About 200 installs daily)
Stub is semi-FUD for at least 7-10 days (max 4 detections)

Features:
- Startup
- Binding with your own file
- Execution Delay
- upon requests (however some features like UAC bypass or WD killer can increase detections)

Works with x64/86, stub is coded in .net

Price
15€ per crypt

Payment methods:
Paypal f&f
Cryptocurrencies

Delivery Time
Usually 12 hours, however it can take up to 24 hours

Contact:
Convo

Are you offering vouch copies?

I am really sorry but I don't. Creating each crypt takes me about 1 hour. It's not like "license product" so I prefer to not spend 1 hour for nothing.

Greetings

Firstly 1H of your time is worth only €15? Secondly a vouch copy isn't "for nothing", with someone's vouch you are more trusted to make more sales, business basics.

In my country people earn average ~3,5€ per hour.
12-15€ per hour is a basic rate for a Junior Developer.
So yes. 1 hour of work in my case is worth 15€

I know basics of business. If I would need a lot of vouches and sales quickly I would offer vouch, but right now I just know that sooner or later I will get first sales and first reviews. It's fine for me to watch netflix until this time

greetings
