Thread: [Casual Programmer/Coder Looking to Advance Skills Through Hacking](#)

crypt1c - July 5, 2021, 4:09 pm

Greetings. I am a newcomer to the site and am hoping to learn valuable skills that can help me in my path with computer science. I am a big hacking history buff and enjoy learning new things about the origins of what we do today. I do minor programming tasks as it's not my main job but I enjoy poking around every now and then. I am fluent in Java, Javascript, Python, HTML, and CSS. Any help in finding my way into the first steps for learning to hack would be greatly appreciated. Also feel free to add me and we can communicate further.

Regards,
crypt1c

Welcome to the forums! Hope you enjoy your stay.

You said you like hack history, well let me share with you one of my favorite documentaries on hacking. Although it is very old and the quality isn't super high, it's definitely watchable and is very informative.

AiDenti - July 5, 2021, 7:00 pm

Hoyo, welcome. 'Hacking' as a term is about as broad as 'development'. It's easiest to learn if you have a goal or project you'd like to accomplish or create. Sounds like you've got the building blocks,

now you just need to find direction.

natsoc - July 5, 2021, 8:51 pm

Awesome! Welcome to HF btw!

Very nice intro, hope you can stay a while ?

This was one of my favorite documentaries. The true origin of "hacking," which carelessness and malpractice have cast a particularly bad light on in today's world. I firmly believe hacking, at its core, has always been for fun and is a matter of limit testing new technologies we discover as outlined in the early portion of the documentary. I agree, this is a great documentary for script kiddies who never picked up the spirit of hacking when they started and might even help them see the bright side of our world.

much0day - July 6, 2021, 12:59 am

welcome crypt1c

hope you enjoy your stay here on HF

Doc - July 6, 2021, 7:28 pm

Hey that's awesome man, I'm also a coder, mainly been using Python up till now and now I'm branching off into learning JavaScript. Welcome!

Zantaro - July 8, 2021, 12:01 am

Hi Welcome! Enjoy ur stay.

onelastnerve - July 14, 2021, 3:03 am

Welcomeeee to hack forums! :D

OpsecFirst - July 14, 2021, 10:51 am

Nice to see a fellow geek.

I learn from here and there aswell.

exclletic - July 15, 2021, 2:25 pm

welcome! keep on learning! GLWS
