Thread: [Soulmate goals with Cooligan \(Insane\)](#)

Makaveli The Don - July 7, 2021, 7:01 pm

So this happened like 10mins ago in convos

Spoiler [\(Click to View\)](#)

and then after that by literally a couple mins:

Spoiler [\(Click to View\)](#)

What are the odds of that happening? And twice? ([Steve Xerotic](#))

I think [Cooligan](#) is my soulmate.

Cooligan - July 7, 2021, 7:22 pm

Proud to have made HF history today with my soulmate. ?

I-I - July 7, 2021, 7:24 pm

Can I be invited to the wedding? I would love to be a groomsman but I'm fine with sitting in the pews with the rest of the family.

??? - July 7, 2021, 8:01 pm

Haha, honestly what are the chances.

I think [Cooligan](#) is my soulmate.

Technically the odds should be 1/10,000 if you're rolling 1:100

$(1/100)^2 = 1/10,000$

Nate - July 7, 2021, 11:42 pm

would the odds be 2% or am I just dumb?

Cuz 1 number out of 100 is 1%, and if its 2 people rolling wouldnt that be the %?

hard is hard

Why is it 1/10,000 and not 10/10,000?
Are you referring to twice in a row or once?

0.1% to hit it once.
0.0001% to hit twice in a row.

618C - July 8, 2021, 12:45 am

so weird! it must be a SIGN
or a glitch in the matrix yall

flavoral - July 8, 2021, 2:38 am

cc: [flavoral](#)
You will get used to it.

Nero Temp - July 8, 2021, 3:09 am

Cooligan is basically my daddy.

OxaByte - July 8, 2021, 4:32 am

[Cooligan](#) is the best dude on HF. I adore him so much

grainy - July 8, 2021, 4:43 am

Damn Mak you got byte rich overnight, tell me ur secret !

Sky - July 8, 2021, 8:05 am

Are you referring to twice in a row or once?

0.1% to hit it once.
0.0001% to hit twice in a row.
Was referring to hitting the same number rolling 1:100 twice in a row. But yes.

Psilocybinaut - July 8, 2021, 9:17 am

I LOVE COOLIGAN HES SUCH A GOOD PAL
