Had the pleasure of receiving a vouch copy of this ebook. Overall I'm impressed, the guides are written quite well and I think anybody reading this - who puts their mind to it can earn with the steps detailed within. It's over 100 pages of content and methods. Easy to follow/understand for a total noob like myself.

Giin was easy to contact about questions I had and replied in a timely manner. Without much else to say I truly (and I repeat again TRULY) recommend this eBook\Methods to make extra \$.

I can vouch for this one. There are a lot of methods in different niches and different ways to build up your money. More than 100 pages, more methods than days in a month and all equipped with time-investment, money-investment, how skilled you need to be and how profitable it is. So you can check which method suits you the best. This document teaches me another way of thinking on some of these niches and also the profit calculator is pretty motivating.

Good luck with Sales Giin! Definitely know it will be useful for members.

My Vouch; This is by far the best ebook visually I have ever seen with great info on each method such as profit, skill needed, time needed etc. Now for the methods they aren't all private, not going to beat around the bush, however there is a lot of methods I have heard of but never knew on how to execute them, of course I was glad to see some methods I didn't know about as well as a speedy response from OP when I had questions. I suggest this ebook for beginners but some adept users could also get benefit out of this too. Thank you for the vouch copy! I am not endorsed by the seller and this is an authentic unbiased review

I got a vouch copy from OP, this book gives you ideas and ways to make money online. I know they work because I've done some before. You will need to do more research on each method as the book gives you brief explanations on where to start and a summary on how the method works. From there you can tweak the method to what works for you. Thanks OP for the vouch copy.

I advice people to deal with extreme caution, this guy right here asks for a vouch copy when you make a sale thread, if you don't answer he neg reps y and does his best to sale trash your product although he sells the same things as you
very shady behavior so better use MM when buying to avoiding losing your money to some public crap you can find for free.

I'm not here to waste my time with scammers, you don't wanna give a vouch because you're a scammer.

This is called "blind copy". You give zero information about what you're selling.
You could literally say "Buy my method for \$40 and you will make money".

Not very compelling at all, is it?

No one. There are too many bad ebooks/ shitty vouches going around, a lot of people are getting screwed. I don't want people to see your "vouch" and make them feel compelled to buy the product.

Do not buy a "vouched" product unless there is proof that the voucher used the method and earned from it, or else the vouch is meaningless.

I suppose the fact that you were exposed to 41 methods and are not making money from any of them is a quasi anti vouch in itself.

I only provide a genuine opinion of a service, I've given negative reviews on vouch copies before. I deemed this one to be satisfactory, I've seen a couple of these methods used by people I know and they've had success with them.

That is fair, but I appreciate your honesty. I think that people should give vouch copies to people who will actually try the methods, but that's just one man's opinion!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
