Thread: [Who here has played fallout 4?](#)

I have been trying to get myself into this game, I got to level 17 and I just can't seem to keep myself interested just sort of bored.

Does it pick up more as it goes on?

I'm thinking of starting skyrim remastered, is skyrim better?

It is a good game and enjoyed it.

It is much better than Fallout 76 which was a bastard to platinum on PS4.

I heard fallout 76 is really good now? I have not played.

Fallout 4 is great. Level 17 is nothing. Keep going, main quests gets better and better

I enjoyed playing Fallout 4 but it was my least favorite of them. Personally I enjoy Skyrim quite a bit more. As said above level 17 is still pretty fresh into the game keep going it gets exciting later on.

Been awhile, fallout 4 was great, who here played the original Fallout when it came out and brotherhood of steel?>

M4A4™ - July 13, 2021, 1:12 pm

Yeah... maybe I'll just force myself to keep playing and see if it gets good idk.

When I was playing it, it wasn't. lol

It might be good now.. I need to play it again because of the new trophies for the Steel Reign dlc.

Yeah I was watching a youtube video heard it got really good and lots of big content is coming up for it. I feel like it would be a lot of fun with a group of friends that down to hop on every day esp if they fixed all the issues.

I still enjoy playing Fallout 4 from time to time. For me it's definitely more fun than Skyrim even

though it's a classic.

Maybe I just need to give it some more time I'm not sure.

Did you ever get the feeling of being bored in the beginning or is it only me? I want to like the game so badly but I just can't seem to get into it.

What are some other really good SP games? I want to get into one and just drop crazy hours on one.

For me it was the slow paste of the game at the start, but it picks up in higher levels, not sure when exactly it becomes exciting though.

GTA and Fallout are my go to single player games, but I'm mainly playing multiplayer nowadays.

Had pretty good gameplay but wasn't a fan of the location or story. The only enjoyment I had out of it was modding, would recommend New Vegas if you never tried it, peak for me.

blackrose_x0x0 - July 14, 2021, 11:27 am

I really enjoyed Fallout 4 and did two complete playthroughs of the game. I was a big fan of Fallout 3 so I got 4 as soon as it came out in 2015. My second go at it was about a year ago and it was more fun the second time for me as I knew more of what I was doing and the choices to make.

If you're choosing between Fallout 4 and Skyrim though, I'd say Skyrim 100%. I've put way too much time into Skyrim over the years, so worth it.

I think there player base dies out pretty fast usually when they do a new release sadly.

When it comes to RPG elements it's the worst fallout game in the series, the gameplay is the best of the series though and the settlement system is really cool

Interesting, I did not know this. I never cared much for the settlement building it kinda irritates me and I don't have the patience for it lol.

So what's the most fun fallout to play then? New Vegas? I am willing to give another one a try.

In my opinion New Vegas is the best, tons of mods to make it even better and restore content cut from the original game too.

As a mate of mine who cant leave his room from f4.

It was months of agonizing watching him build mods and fiddle with the hub..i whispered sometimes..What about that baby?

Hes an ex punk squatter from the ny scene and la.. married into a greenage farm
but the game tje game

he says irs a solo sandbox never ment to play or eeturn from.. and about the modding

He has been basically building a new game with f4

.

Yes 17 isnt even fetting started.

Those creepy statue thingys from macys though.. they are aware

I love this game so much, literally couldn't stop playing til I beat it. Highly recommended.

Undead - August 6, 2021, 2:23 pm

I played it and it wasn't that great, IMO. I didn't like the voice acting, the quests and dialogues were pretty boring too. Las Vegas was the best closely followed by Fallout 3.

O T F - August 13, 2021, 10:16 am

I thought Fallout 4 was a fun game, but Fallout 3 was the best with all the add-ons.
