Shame to see this happen. Hopefully it gets resolved.

Can you post screenshots of you chats with him.

Never trust a guy with a protomail email, v for vendetta mask or someone who still uses skype! [flavoral](#) sellers info/signature says he sells database leaks, is that allowed since it's not on a post?

It says leads not leaks. It might depend on the case of what type of leads being sold as there are many sales threads selling leads.

The entire profile is just one big red flag haha. Hopefully this gets resolved for you OP but that profile looks like it's straight from some russian carding site lol.
