Thread: [200% ROI WITH ZERO WORK | 15 MINUTE SETUP | PRIVATE AUTOPILOT METHOD](#)

biscuit deluxe - July 14, 2021, 10:47 pm

Preface

This method will not bring you hundreds a day, but if you want a minimum ROI of 100% upwards to 200% without having to do a single thing, then continue reading. This is private, simple, truly autopilot and has no risk.

The only requirements are: An iPhone/iPad/Mac

A phone that can text or call

\$100 USD

You are not directly sending money into a person or group. Rather, your money is essentially always under your possession but will be used to be eligible for payouts. For each setup, an investment of \$100 is required, and you will make that money back within a month guaranteed. The system is queue based, which means that you will have to wait until you're first in line before you start earning. This wait can take around a month, but if it takes longer than that you are able to get your investment back. With the next iPhone to arrive later this year, I expect the earnings to even faster and the ROI to increase further.

10% ROI within 1.5 days (waited 2 weeks in queue):

You will be able to see your revenue increase every 10-15 minutes (on average). This will continue until you reach between 100-200% ROI. To be transparent, there may be times that you won't go above 100% ROI (or you make less). This is largely due to high supply and/or poor demand, however, you would have to be very unlucky to make less than 100% ROI. Either way, you will be profiting.

Frequently Asked Questions

Will this work in any country?

Yes.

Is this legal?

Yes.

Is this saturable?

Yes, I will only give out 10 copies before closing sales.

Is this scalable?

No, it is not scalable in the sense that you can adjust the investment.

Is this repeatable?

Yes, each setup will require \$100 and you can always expect to at least double that.

Is this really autopilot?

After an initial setup of 10-30 minutes, yes.

When and how do I receive payouts?

After requesting a payout, you will receive either PayPal or BTC within 24 hours.

What happens if I don't earn in a month?

You will receive your investment back (\$100) and will still be able to earn.

Purchase

\$75 BTC/ETH/LTC

Includes mentorship and support.

I can provide two vouch copies as well as accept a middleman on a case-by-case basis. I am currently in need of money for various reasons so I would prefer the funds not to be held for a month. There is no refund policy as I can guarantee that you will make your investment back. However, you may contact me if you are not able to and I will see what I can do.

Im pretty well rep'ed and have left vouches in the past let me know thanks will leave a detailed review

Mustard Tiger - July 14, 2021, 11:26 pm

I would be willing to take a vouch copy in exchange for a detailed and thorough review.

xc0z - July 15, 2021, 12:12 am

Instead of people who beg for vouch copies on every thread and don't try the method (literally 99% of people who ask for VCs) I'll take one if you're willing to.

Rest assured, I will be blunt and to the point.

SIM-4138774 - July 15, 2021, 12:42 am

So you mean this can only work with \$100 ?

What if i want to double \$10k in 1 month ?

It works best with smaller amounts as the user demand is not that high enough for you to profit from a \$10000 investment. I would say the most you should put in is \$300-500, wait a bit until you make at least 100% ROI (that way you can assess whether or not you should scale further) then invest more.

Winds - July 15, 2021, 1:37 am

I'd be happy to grab a vouch copy and leave an honest review, let me know :)

Dr_RezfanFutyulo - July 15, 2021, 1:57 am

Is it app related? Is that why you need the mac / iphone etc?

Yes, it's app related. However if you do not own an Apple device you can borrow one from a friend for a day or two.

You mention that this requires absolutley zero work after the inital 10-30 min setup and you also mentioned that you haven't executed this method in over a year.

If this is zero work involved for a 200% ROI why wouldn't you just let this run on the side of whatever else it is that you're doing?

In any case that's my only question and it looks interesting, I'd be happy to get a VC in exchange for a review otherwise I look forward to seeing customer feedback. GLWS!

Good question, honestly I have no idea why I did not keep it going after doing it the first time, but back then I was living with my parents and did not have bills to pay. The method still works just the same, although the ROI was much better a year ago.

Fair enough, appreciate the response!

biscuit deluxe - July 15, 2021, 3:15 am

I have reduced the price to \$150 and stated that I will only sell up to 10 copies to prevent saturation.

Fresco - July 15, 2021, 5:11 pm

Can use same Apple device every month, or need to change it?

Thanks

You can use the same device.

Rexxleo558 - July 15, 2021, 8:24 pm

Can this be done with multiple apple devices to scale up? Also is it white hat?

Also can this be done without pAypal

You only need one Apple device to scale.

It is legal.

You can be paid out with either PayPal or BTC. You will need a valid credit/debit card for the investment.

I'll be waiting for the vouches on this one.

Really hope the vouches aren't the same generic bull.

7 - July 30, 2021, 9:17 am

This is really interesting. I am interested to understand this method.

GLWS

Handle337 - July 31, 2021, 1:04 pm

Yeah, I'm going to wait for the vouches because OP is one of the 3 who vouched for TenZ's crypto method, which I bought, and it turned out to be a scam.

I noticed this as well. I would like OP to address this.

I am not TenZ or associated with him. I bought his method and received a payout thinking it was legit so he could get me to vouch for him. He went MIA after that and closed his thread so I could not edit my post.

I have spent plenty of years on this forum having done many transactions totalling thousands of dollars. I'm only asking \$75 for this method. I already gave a vouch copy out to a reputable member and I still have one more that has yet to be claimed.

Ok... so what were you vouching for? You mentioned that your investment doubled and was capable of going 3-4x. So you know about the method. And FYI, I wasn't given all details about TenZ's method, even after paying full price for it. My investment started and ended with Metamask, no private method or mentorship was given due to his delayed responses.

He's a scammer so obviously he doesn't have an actual method, I have no idea what he's telling other people. I think you know that he's basically told us to invest in his P&D project or to listen to his signals. I have no idea how to trade so I asked him to trade \$100 so I can see how it works as he said he would be recording a video. The next day he came to me and sent \$200 to my wallet so I would have the false belief that whatever he's doing is legit. So he asked me to leave a vouch. I didn't have any suspicions at the time so I went with it.

Look at this thread: <https://hackforums.net/showthread.php?tid=6164432>

Plenty of people leaving vouches and look what happened in the end, you can't blame them for letting others know their initial thoughts. I did my best and reported my own post and even contacted another member in the process of purchasing the method to not go through with it.

Obviously we know that now. So he asked you to leave a vouch for his mentorship, which I assume you didn't even get. But because the money you had invested magically doubled by the next day (without any mentorship) you consider that vouch worthy. That's absurd. If you and 2 others weren't promoting that trash I wouldn't be out \$750. Just saying.

I left my initial thoughts. He deceived me to believe that everything is going well. That's all I can say. If you left me a DM I would have told you that he's being shady. I supposedly got the last or second to last copy so I didn't even know that he was overselling his "method." Not sure if you expect an apology from me, but I'm a victim from his scam too.

There's no reason for me to DM you because everything was looking good, 3 vouches, limited copies and a fairly reputable seller. I didn't even want a MM because things looked great at the time. And no, I don't expect an apology but you're wrong for promoting trash you know nothing about and leading others to believe it was something good.

Sure, I can understand where you're coming from. But if you had an account that would look good for his thread I'm sure he would do the same as he did to me and make the method look 100% for you so you can post something positive about it.

Kraxas - August 1, 2021, 2:23 am

Ok so I bought and I can guaranteed that these is a legit method, he's not a scammer so stop with such posts.

Just don't think to make billions with method, it doesn't look scalable and it may get saturated but seller guaranteed that is not gonna sell tons of copies.

I'll update when possible.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
