@real rudy

Tried to buy some rp from me and was obviously trying to scam me.

I found his open dispute where he scammed 400\$ from someone and even with proof he was never banned? (how?)

I confronted him saying i wanted to use a middleman, with the result of him cancelling the contract and giving me negative -3 rep.

Can the negative rep be removed somehow and why is this guy not banned after a legitimate scam report?

1. Staff doesn't get involved in deals.
2. You can't call someone a scammer without HF contract.
3. Sorry to say but you should just move on.

I am not here to bully you or act bigger, just telling you how it is or what I am told.
