Thread: [Best site to sell airbnb gift cards?](#)

I'm looking to sell 2 \$500 airbnb gift cards for a great rate (for me, the seller), anyone know the best site to sell gift cards on without losing too much value?

Either create your own site or it's going to be damn near impossible in my experience to sell them for a profit unless you're getting them for free.

I'm not sure if ebay allows it, although I'm sure they would be I see xbox prepaid cards on there all the time.
