Thread: [new malware steals FB permissions on the fly](#)

hudav - July 19, 2021, 3:38 am

An app is offering fast credit, it steals FB permissions and can take vital info from android storage.

Very Credit Fast, Fast Credit, Easy Loan.

It's a startup, the backend was really unprotected.

You can take the SMS gateways or creds for deploying containers.

app-release-Préstamo-rápido-xx1

credito rapido apk on store

one endpoint.

sorry, may be I'm not clear.

its just a small extract from the malware code, in case somebody needs to know.

the malware can be located through that clues, in fact links does not take to anywhere, they are just for those that can see.

I see by your medals and impressive popularity that you know better than me what to do. no more links.

Kind Regards.
