hey everybody! back with more money making products for everyone

I'm a very experienced eWhore, you can ask around, I have been doing this since I first joined HackForums and perfected my craft. I recently came back into the scene and remembered that I made an eBook at my peak performance. This book is perfect for new people wanting to get into the scene and even people who have experience. I'll show you ways to save your own time and to make money efficiently and fast. No more waiting days to get \$20 out of one person, with this guide you can make around \$200+ daily with ways to scale it fast.

This guide is also very cheap, because of the amount you will get in return can be hundreds to thousands depending on the work you can put in.

- Unsaturated methods (My personal ones)
- Methods on how to be efficient
- Stop wasting your time
- How to milk your clients

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
