Have you ever wanted to bypass the 25 char limit?

Now you can.

Just quote this post, but remove all the words inside of the quote] [/quote tags. Then just type anything under 25 chars

Proof:

See post below

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

But how can you bypass the character limit if you can't even post, OP?
