Hi, this guide is highly voluminous, as it consists of 12k+ words (around 50+ pages). It covers all the critical aspects of SEO and live examples (I have used my websites) to maintain transparency. It also does not promote any premium tool(s). I have added my years of experience, and I'm confident that you won't regret it if you purchase it since it's not some random guide. I HAVE FULL FAITH IN MY KNOWLEDGE AND SKILLS. You will get my support and guidance (at every point).

I have quite a few questions in general about the profession of SEOing:

1. How much do self-employed/freelance SEO experts make?
2. Are there a lot of people hiring? I imagine you would turn this to rank other people's websites for money, if not your own site.
3. What's the typical hourly?
4. How long does it take to "apply SEO" (idk the terminology) to a website?
5. After you do it once for a website, do they need you to maintain it long term?

That was the base price, and after selling all the copies, the final price is/was \$500. However, I appreciate your time and offer. ?

SEO has helped businesses, and it's something that requires constant effort. So, maybe you are correct. ?

It entirely depends on the site/niche you are building and the competition. However, applying the knowledge would fructify the efforts, and you'll undoubtedly see some exponential growth.

Note: Please don't expect to rank a site in just a week or two, as it's a time taking process, although users who bought my service or guide in the past can share their experiences. So, feel free to reach out to my past clients (check contracts), and get to know their feedback.

Let me know if you got any further questions.

Yes, [firulais98](#) - I've been working on AI-based content, and most of the information has been added. Since it includes lifetime free updates, the new release will be sent to existing buyers as well.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
