Thread: [Payment Processor](#)

OSJEK - July 26, 2021, 9:57 am

Hi HF!

I'm looking for a payment processor so I am able to directly process credit card payments for my call center. We do sales for a few different campaigns and are struggling to find a processor for payments.

We have tried Square, unfortunately we can only charge customers in our currency, we can't charge in USD since we're outside of USA. I was wondering if anyone has a solution or a payment processor that will work for this.

Can't you just use Stripe?

Which country are you working mainly in?
