Thread: [Free Landing Page Web Development](#)

RedEyed - July 27, 2021, 10:07 am

Hello,

I will jump straight to the point here.... I am a web developer, I own a legitimate business developing, hosting and maintaining websites for local businesses within my area, I am looking to expand online but I do not want to use my companies name to attract clients online, therefore I have recently purchased the domain RedEyed.net where I will be working on pre-made themes/templates for the likes of MyBB, Wordpress, WHMCS and many other scripts, along with static websites also.

I do not want to use my business portfolio to attract clients for obvious reasons so I am looking to build a new portfolio, so I will be designing a fully custom and unique landing page (1 page design) in HTML, Bootstrap and CSS with elements of PHP and JS/jQuery for a HF member to add towards my portfolio.

I will not develop this template to waste my time so I want it to go to someone who will actually use the template for their website/project.

So please reply to this thread with information regarding your website or project plans, if you do not want to share the website URL then please send me a PM with the URL.

Good luck to anyone that enters, rep is appreciated but not required and I will choose a winner in 72 hours.

(Please note as this is a free project I will put a timescale of 5-7 days on your template as I have paid work that will be my priority)

Ninja™ - July 27, 2021, 10:43 am

Dont need anything but Thank you for your generosity.

Garage door services, just got the domain and need a website so that'd be cool.
not enough rep but if it works out lmk and I'll pm you.

Good luck anyway!

[Powder](#) Congratulations you win this template :)

Drop me a PM or add me on discord and lets get this bitch built.

Unfortunately Powder won the giveaway but I am also available for custom projects.

Contact me via Discord or PM here and we can discuss.
