Thread: [Need a steady job, willing to work up to 10 hours a day](#)

Git878 - July 29, 2021, 10:38 am

Hi everyone.

I'm a hardworking and quicklearning person looking for a steady job.

I'm willing to work up to 10 hours a day.

If you are looking for a good worker, please PM me your contact details and the brief explanation of job and I will get back to you.

Greetings.

Maybe include how much you're willing to earn

And what you are able to do.

Is there any way you are looking for a remote job, so you can work from the comfort of your home?

You got experience in front end web dev? Including advances HTML, Bootsrap, CSS, PHP, JS/jQuery?

If yes add my discord or quote me and I will PM you.

Sometimes I get snowed under with projects and would be ideal to have someone experienced to pass work to, each job that you did would be checked and altered (if required) by me before it is produced to customer. First 5-10 jobs you would be paid once work is complete, once you earned my trust I would have no problems in paying you upfront.

Payment could be sent to you in Bitcoin or PayPal.
