Thread: [eBay Dropshipping Store Assistance \(Store Setup, Boosting Sales, Automation\)](#)

I'm quite experienced with eBay drop shipping, particularly on eBay.

If you're trying to get more sales or get started I'm happy to walk you through, etc. I've never had an account banned or restricted, and can pretty much almost 100% automate everything for you. (using tools etc that I will provide and setup for you).

I have good performing eBay store making between \$2k on average per month which I can show to anyone who is hesitant.

I'm not going to set a price as each persons store/needs will differ, so pricing can be negotiated based on what you need.

Common Questions:

I bought an eBook once about dropshipping on eBay but it didn't work out, how is your service different?

Most of those ebooks are bull shit, they're literally taking your money and sending you a pdf file. There's no fucks given if you succeed, fail, nothing. You've spent your money and they've given you the item. I will mentor you through, have your eBay store as automated as possible, answer your questions, and you'll have me to fall back on for questions, advice, etc.

Aren't you the same guy who scammed and got banned? If not let us know, the name is just.. the same.

I'm surprised that someone else came up with a fucked up name such as PetWussy lol, tbh.

Feel free to get an admin or someone to compare the IP's.

I'm literally trying to give back and mentor people because I'm stuck in lock down and unable to leave the house. If anyone has trust issues then don't do business with me, simple as that. I've already sent proof to 2 users via PM of my eBay account showing sales, feedback, etc.

Thanks for pointing that out, in case other members have the same thought.

I'm looking for a guide on how to make stealth eBay accounts. This includes setting up PayPal, removing and preventing any blocks, and withdrawing the money successfully to a bank account. Would you be able to provide guidance on this?
