What is it about?

For couple months now, I'm working for a project that I'm getting paid around 1-1.5k\$ per month on average. Pretty much it's a private method that I found, I created a group of customers and I provide them the product. I'm willing to give few spots for those who're interested to work for the project and make money as I do.

Requirements:

All you'll need is internet connection, a pc and a brain, nothing else, not specific skills as I'll guide you for everything. It may need an "investment" (you may have to rent RDP) but that depends on your pc specs.

About the method:

The "method" can't get saturated as I'm the only one who is connected with the customers. All the deals will be done between us and I'll provide the "products" to the customers. From your side you'll only have to keep the service active, which means take a look 3-4 times per day.

The method is scalable, which means that your income depends on the effort that you'll put in the project but the more income you want to make the more you'll have to monitor it, so if you wanna make more money it'll be like a job that you work couple hours per day in total. It is scalable but not LINEARLY scalable, which means you won't get paid 10x if you work 10x more, that's not how it works. The reason why I'm giving some spots is because I don't have that much time due to my rl job and there's room for more people for the project. So this will be some extra income for me and for those who're interested as they'll profit, win-win situation.

Refund:

As I mentioned above, this isn't another thread -fake promises- I will refund 100% those who put effort in the project and they didn't make profit. I don't see how they wouldn't but even in this case I'll refund them. I'll be able to check out if they actually followed the method or if they just did nothing, so read carefully the T.O.S. before dealing with me. Method is already autopilot, if you're super lazy

and you don't even want to spend 15-20 minutes of your day then don't bother to message me.

SPOTS 1/7:

(Aug 16, 2021 01:17 AM)_Misery Wrote: [\[CITE\]](#) This is my honest and unbiased review of this mentorship-method-thingy (now referred to as menthodo).

THE SELLER: 10/10

Oliver is in my opinion a very professional guy. He knows what he's doing, how he has to do it, etc. Talking to him feels like talking to a business partner, instead of a seller. He guides you through every step of the process, is willing to go into great detail. The guy's made screenshots AND videos on how to perform specific steps in this menthodo. Aside from being professional, he's also very friendly. He's willing to do things for you to a certain extend if you're unable to at a specific timeframe. He OFFERS to do this, you don't even have to ask him.

THE MENTHODO: 10/10

Honestly, I do not have a lot of experiences with methods nor mentorships when it comes to forums

like HF, but I recognize potential when I see it. This method is something I did not see coming when I first bought it. It's relatively simple but extremely well-developed (and he's still making improvements) and very well thought of. Now I'm not going to explain anything that's done in this method, but the promises he made are solid and low-balled. With the goals Oliver set for the buyers, the estimated income is now at a minimum of \$1400, and this can still grow.

All in all, I'm very pleased with Oliver and his method. I'll gladly buy from him again in the future.

(Aug 14, 2021 08:52 PM)gwilll Wrote: [\[CITE\]](#) I purchased this method and it has been great so far. One of my bots got a hit on the second day running the bot, and I was paid by the op promptly. There was a small glitch in the bots when it got a hit, which technically made what my bot found unusable, but the op paid out of his own pocket to ensure I got the profit he advertised in the thread. So two thumbs up for Oliver! ??

This is my honest review for this mentorship - method.

I bought 2 products from Oliver and so far I am satisfied. He seems to know what he's doing in every case, he's talkative and supports a lot, what is the best though is that he replies almost immediately as you message him (personally I haven't seen this to happen that much in this forum from other sellers).

The method surely worth the money, I will not leak it but I'll say that as you buy-in you'll work with Oliver closely for the project. He studied it and he knows what he's doing. You can try to find your own customers but I think it will be difficult, personally I'm fine as I get paid from Oliver's customers (via Oliver, he'll pay you). Most likely you'll get more than 1000\$/month as it seems, I think Oliver should edit the thread I would say around 1500\$/Month is reasonable amount if you follow Oliver's instructions, also you'll get paid every few days as I understood so far. You will have to work 20 minutes per day or maybe a bit more sometimes but not more than that.

So far I am very excited and I can understand that this is very valuable even if it's pricey. I would change the spots' prices to 900\$-1000\$ for every spot.(just my opinion)

This isn't my final update. I will update you with my earnings soon.

(Aug 16, 2021 05:08 PM)SIM-4831178 Wrote: [\[CITE\]](#) Not double vouching, just an update.

Proof of my earnings:

Oliver explained everything with many details, method is simple but also very unique, Oliver is indeed professional, he solves all the problems that you may have. As I already mention to my previous comment, I believe that 1500\$ per month is a realistic scenario as you follow Oliver's instructions. Will edit this comment to post more proof of earnings in the future.

Overall, it's a 10/10 for the service, the potential and the support from Oliver.

A lot of other people once they sell their method to you, you are pretty much on your own as they won't give you the pre sales attention they did. This is not the case with Oliver.

Essentially with this you have the opportunity to partner with him and run a program that will help you make money. Running the program and set up should only take a few minutes. You will need a VPS in order to run it 24/7. So other than paying for the slot, you will only need to invest in a VPS. The more you run, the more potential you have to make. I'm not going to go into a lot of details as I will leave it up to Oliver to disclose what he wants. Feel free to send him a message on discord.

Overall, I am really happy so far with the way things are going and I will update this thread again when I make my first earnings. It is just a matter of time.

I will not accept any other offer, do not DM me, you'll waste yours and my time.

T.O.S.

Spoiler [\(Click to View\)](#)

- You have to follow my instructions no matter what. It will not take you more than 15-20 minutes per day most likely.
- I will not refund anyone before the period of 180 days.
- Sales trashing/Disputing will automatically make support and the refund policy void.
- We won't decide together what is sales trashing, I will decide that.
- I can kick you from the team at any time, without notice or explain why and you'll find your own customers and work solo.
- I can change the T.O.S. without informing you before/after.
- By purchasing you agree to the current and future T.O.S.

It doesn't involve any kind of risk for those who will buy a spot, they'll just have to do a 15-20 minutes job in total everyday, you won't have to invest anything (only in case that you'll need a RDP as I mentioned above you'll rent, but even that will cost like around 25-40\$ per month I guess).

I'll reply soon to your DM as well.

I'll give a spot "as is" without using MM unfortunately due to the nature of the product. In case that you don't put much effort you could just simply get your money back while you learnt how to use my

method and you could even try to build your own network with new customers. As I said in my terms I'm 100% down to give refund in case that you follow my instructions and you don't make 1000\$ per month. The "work" that you'll put can be calculated from the method so we will both be able to see if you followed or not my instructions. Sometimes might require 30 minutes but yeah in general it's around 20 mins per day.

Also just to mention it, I don't charge ANYTHING in order to give you my programs, if you don't get 1000\$ per month as we agreed, I'll refund you and you'll keep them for yourself and you could use them to make money for yourself.

Very Interesting :)

1) is this about selling something?

2) Does this require your support always or can we earn ourself once we learn the method?

3) Can we withdraw daily? Is the earnings in crypto form?

4) Are we getting paid from another person or through a website?

5) is \$1.5K max for a month? (what is the apprx earning with 1 to 2 hours on a daily basis?)

1) you will not sell anything

2) It does require my support, actually we'll kinda work together but you could also find your own customers and start by yourself.

3) No you don't get paid everyday, after every few days.

4) You're getting paid directly from me (I'll deliver the product to the customers, they'll pay me and I'll pay you).

5)No it's not the max, the profit isn't linear function with the hours you'll work though. With 20, max 30 mins per day you'll get 1k\$ per month. By working 1-2 hours per day you'll get around 2-2.5k\$ per month most likely.

I explained already the reason why. It is scalable but the profit that you'll make isn't a linear function with the effort that you'll put in the project, it means that if you work 10x more you won't get 10x more profit.

I do not accept paypal, also your payments will be also in BTC.

(Aug 14, 2021 08:52 PM)gwilll Wrote: [\[CITE\]](#) I purchased this method and it has been great so far. Besides a short set up, you just have to run a bot until a certain thing happens and then you give that thing to op for money. The program you run in its current state is slightly buggy, so it requires some monitoring to make sure it didn't fail/crash, but the op has been super responsive and constantly works on it so I wouldn't be surprised if this gets better.

One of my bots got a hit on the second day running the bot, and I was paid by the op promptly. There was a small glitch in the bots when it got a hit, which technically made what my bot found unusable, but the op paid out of his own pocket to ensure I got the profit he advertised in the thread. So two thumbs up for Oliver! ??

Payment Proof of first earning

Thanks a lot for the feedback buddy.

Very Interesting :)

1) is this about selling something?

You will not have to sell anything to others, pretty much you'll work with me. Add me on discord for more info if you'd like.

This is my honest and unbiased review of this mentorship-method-thingy (now referred to as menthmethod).

THE SELLER: 10/10

Oliver is in my opinion a very professional guy. He knows what he's doing, how he has to do it, etc. Talking to him feels like talking to a business partner, instead of a seller. He guides you through every step of the process, is willing to go into great detail. The guy's made screenshots AND videos on how to perform specific steps in this menthodo. Aside from being professional, he's also very friendly. He's willing to do things for you to a certain extend if you're unable to at a specific timeframe. He OFFERS to do this, you don't even have to ask him.

THE MENTHODO: 10/10

Honestly, I do not have a lot of experiences with methods nor mentorships when it comes to forums like HF, but I recognize potential when I see it. This menthodo is something I did not see coming when I first bought it. It's relatively simple but extremely well-developed (and he's still making improvements) and very well thought of. Now I'm not going to explain anything that's done in this menthodo, but the promises he made are solid and low-balled. With the goals Oliver set for the buyers, the estimated income is now at a minimum of \$1400, and this can still grow.

All in all, I'm very pleased with Oliver and his menthodo. I'll gladly buy from him again in the future.

Due to the huge demand I decided to give 2 more spots.

-1 SPOT for 1100\$

-1 SPOT for 1200\$

Not double vouching, just an update.

Proof of my earnings:

Oliver explained everything with many details, method is simple but also very unique, Oliver is indeed professional, he solves all the problems that you may have. As I already mention to my previous comment, I believe that 1500\$ per month is a realistic scenario as you follow Oliver's instructions. Will edit this comment to post more proof of earnings in the future.

Overall, it's a 10/10 for the service, the potential and the support from Oliver.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
