Unless you're ready to give out a vouch copy to prove the legitimacy of this method, I doubt you'll be able to sell any copies considering the fact that you're a 'fresh' user.

Hey, yes and I'm interested by having a vouche copy, I'm a rep [BRAND NAME REMOVED] traffic seller, so I guess I am in the right place to receive your mentoring ? [warn]

I took a warning because I asked a VC so, I guess you should offer it on thread officially, and add me on discord : Fitis#0201

?

Alright, here is my honest review : the method is legit, and I'm pretty sure it's gonna work.

But it's a slow process, so you will not get thousands of adds the first day, but it's more like for long term process, but legit for sure.

I think it's a good method for personal use.

GLWS mate, thanks to give me opportunity to vouche for you ?
