Thread: [Willing to help out beginners on faking verifications](#)

Central - August 6, 2021, 2:44 pm

Hello dear HF users!

First of all I just want to pinpoint that I am not an expert on making money e-whoring and these are just tips and tricks on how to catfish legitimately on any kind of social media platform. I first started out e-whoring since teens and been on a break since then till now. I know a few ways around to get needy guys to actually believe you are "real" till you just end up ignoring them.

This is not a guide just a help thread for people in need or for those who just want to ask a few questions. And it is free! :)

I am willing to help with mostly all questions.

Here are some things I have mastered during my time:

- Faking a verification picture (paper included and your name hand typed)
- Faking live snaps
- Faking live snap videos
- Faking an Instagram page
- Faking locations etc

Feel free to ask here or just hit me up on pm!

Just wanted to clarify that I know that there are a lot of E-books here on HF who might/are better than me at this but some people might not want to spend money for one question asked.

Have a good day! :)

Helping out is key for others success. I just give back what others have taught or what I myself have learned throughout whether it be this or something else. I appreciate you taking the time to comment and wish you the best as well. Thank you!
