WTF? This is a troll post for real...

Thevoice87 - August 9, 2021, 3:44 pm

How so? If I was trying to piss someone off intentionally and troll I could have done so in a much better fashion I'm sure. It's a tutorial and it was meant to be funny, not offend, but it is a tutorial none the less. If you feel I violated something feel free to report the post. smh

Sir, I think you wrote your script wrong. I ended up hacking into Tesla instead. Their video feed shows Elon, and Grim chanting in some alien language sitting in front of a fire. I want to go home, I'm scared.

You know what's funny about this thread? There used to be a guy on this forum named TinKode that actually hacked the real NASA and posted screenshots on here before he went to jail.
