Thread: [\[FREE\] Doxxing / Digital Investigation](#)

0x0sum - August 9, 2021, 7:27 pm

Hey all!

I'm a digital forensics dude who enjoys performing investigations on anything and everything. I figured it'd be easier to break into selling my services here if I built up a rapport, so for a lil while I'm offering my services free of charge.

I can't guarantee I'll be able to find all of the below on your POI, as some people are more privacy conscious than others. (Good thing this is completely free ?)

Tell me some background info about the POI and any info you have on them and here's some info I'll provide (where possible):

Username

Email

Password

Phone numbers

IP Addresses

Address

Social Media / Gaming accounts

Friends / Family

Cheers,

Sum
