My review of the vouch copy RDP:

Deal itself was a breeze - dude is surprisingly active at all times.

The RDP I got has interesting stuff on it and definitely being used as a server (file server in my case), so should last long.

Was a pleasure!

OliverSc - August 19, 2021, 1:53 am

My honest review of the vouch copy I received:

What was advertised, was delivered. OP delivered the RDP in the timeframe we agreed, with the specs we agreed. Everything is exactly what he advertises in his thread, nothing less. RDP works fine, no issues at all, full admin access.

OP seems friendly and he'll help you if you need anything.

I will surely buy from him some more RDPs as they're cheap and high quality.

Thanks OP for the VC.

Palac10 - August 19, 2021, 1:21 pm

Send me a private message on site or on discord/telegram, you chose specs I approve that I can provide, and then we start a contract on site before

you send a payment via Crypto currency -> Receive your rdp -> completing the contract -> any issue comes up message me I'll help you.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page

and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
