Vouch for the Zeta cheat, I am also a reseller of it. Cannot vouch for the user or custom tool provided above obviously as I've never used it, but as for the cheat itself, I own a copy so yeah it's good and fun to use. Looks like an interesting concept for creating accounts. Never been banned before though.

Thank you for vouching for the Zeta cheat. I agree it's an extremely fun cheat!

I've been watching the account market for a while and have noticed some interesting things going on in the market. So far, my customers who rage have qualitatively noticed increased amounts of play time before shadow ban or ban. As for me, I've noticed increased amounts of stealth cheating.

I literally just use FOV below 18 and you're good lol. I get reported like 40x a day.

That's a good strategy for stealth for sure! My fellow customers who like to rage typically get 40 reports in a match :)

Bruh.. those prices are cheap AF, I usually pay \$3 for a wz account and get banned after like 4 days.. I might try these HQ accounts.., if they are legit, i think I'll scoop 2 more and even an aged account just to show off ?

Vouche for that guy, i rage AF yesterday, still not ban, wait & see

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

At this time we do not but feel free to create a ticket in the discord and we'll see if we can point you in the right direction.
