Thread: [zGen Builder | Excel Macro Exploit | FUD | GMAIL BYPASS | 2021 | UAC BYPASS | FEATURE](#)

zGen - August 14, 2021, 12:08 pm

We are introducing zGen Excel Builder

SCANTIME XLSM 2/26 PUBLIC STUB <http://avcheck.net/id/YfWeHmkEJhii> RUNTIME SCAN 6/23 PUBLIC STUB <https://dyncheck.com/scan/id/2547ce01eb22647b0727ae541a588158>
SCANTIME XLSM 0/26 PRIVATE STUB <https://avcheck.net/id/d1foRmPKT3tk> RUNTIME SCAN 0/23 PRIVATE STUB <https://dyncheck.com/scan/id/09049ebdf4deeb859ba3a1f004d211c5> UAC BYPASS FEATURE ONLY AVAILABLE FOR CUSTOM ORDERS
RUNTIME SCAN ON OUR VM WITH WINDOWS DEFENDER CLOUD PROTECTION ON (UPDATED 18-08-2021) [Video: <https://vimeo.com/589182648>] ShowCase

SMALL UPDATE - Due to people asking for template generated excel files, we have just added that!

Specify which package you are buying and what payment method of the above you are going to be using [Purchase Bundle](#)

VOUCH COPIES 2/2 SIDE NOTE: Unlike other sellers who sell lifetime like it is nothing, we will sell only 5 copies! we also have high prices to keep a low customer base for more FUDNESS, QUALITY > QUANTITY

Feel free to ask questions

EVERYONE DO NOT CONTACT @ZgenSoft He has someone kicked me out of my account and is asking customers for extra money please message me on new one MY OFFICIAL TELEGRAM IS @ZgenSoft2 ALWAYS START A CONTRACT

IDK - August 14, 2021, 12:10 pm

I will take the vouch copy if it's still available.

zGen - August 14, 2021, 12:11 pm

(Aug 14, 2021 12:10 PM)IDK Wrote: [\[CITE\]](#) I will take the vouch copy if it's still available. of course please do message us on Telegram, Discord or through here

Comrade - August 14, 2021, 9:02 pm

I would like to accept one review/vouch copy....

Will test the product & post a review regarding it....

Also sent message you on Convo. & added you on discord.

Thanks,
Comrade

pbk1989 - August 15, 2021, 1:32 am

Do you offer vouch copy to a newbie/un paid member such as myself? I will review the product completely and post it asap. I can even sweeten the deal a little bit by telling you this amazing joke.

I went to the zoo the other day and after walking the entire park and not seeing a single animal

decide to leave. Frustrated and walking to my car I spot a stray dog in the parking lot.

It was a Shih Tzu'.

zGen - August 15, 2021, 2:20 am

no we do not sorry we have already given to one member, waiting on another.

pbk1989 - August 15, 2021, 3:30 am

(Aug 15, 2021 02:20 AM)zGen Wrote: [\[CITE\]](#) no we do not sorry we have already given to one member, waiting on another.

I kinda figured. I was just being stupid and silly (had a little bit too much to drink last night). I do have two questions though before i purchase - I notice this is scantime and runtime FUD. I would still need a crypter to make my silent miner FUD correct? Because even though it gets dropped and bypasses runtime the periodic scantime would delete my silent miner right?

And my second question is if i use a silent miner that isn't FUD but it DOES bypass defender would I be fine for the people that only have defender as AV? Because of the scantime and runtime bypass?

zGen - August 15, 2021, 6:25 am

Generally you need a crypter for your payload since it is classified as malicious.

0xyg3n - August 18, 2021, 2:30 am

Looks promising, GLWS mate.

RealExploit - August 18, 2021, 2:32 am

do you have any more recent runtime scan?

zGen - August 18, 2021, 3:58 am

(Aug 18, 2021 02:32 AM)RealExploit Wrote: [\[CITE\]](#) do you have any more recent runtime scan? Yes as you can see it is posted on the current thread.

CasePaste - August 18, 2021, 1:30 pm

wont mind a vouch copy to test and give a review of it

zGen - August 18, 2021, 2:29 pm

(Aug 18, 2021 01:30 PM)CasePaste Wrote: [\[CITE\]](#) wont mind a vouch copy to test and give a review of it already given 2, waiting for reviews from them...

Comrade - August 18, 2021, 10:18 pm

Posting the review after using the software for 3 days. I received a review/vouch copy of the application.

1. Purchase Process: (9/10)

After making the successful payment for selected packages, buyer receives a download link of

password protected program archive (in .zip format) & a serial key. Buyer then need to register an account by provided serial key. After a successful registration, buyer will sign-in using the signup/registration credentials & program/excel exploit builder opens. Overall, process is simple & fast.

I would suggest buyers to open a HF contract for the package of their choice & after seller accepts the contract, if you have anything in mind which they need to ask the seller, always (and everytime) contact the seller via HF convo which is safe for both Buyer & seller.

2. Software GUI: (9/10)

GUI is simple, solid and easy to use. User just need to provide direct download link of the payload & select the type of stub (public/private) which he bought. Then click on 'build' & it generates excel exploit file into the same directory.

3. Software Usage: (9.5/10)

As per the recent update, current excel file size is around 12kb for me which is great. After scanning the generated excel file onto private non-distributed multi-engine antivirus scanner (dyncheck), the result i got was 1/23 (only fortinet security detects it which also shows as 'HEUR' detectation), so technically, it is 0/23 as of the post date.

4. Support: (8.5/10)

The developer aka 'zGen' is a cool guy & most important thing is, hes a humble fellow. I was in touch with him for the last 3 days on his discord ID. Initially, told him that i will post a detailed/non-biased review in 48hours (i.e. in 2 days) but due to my IRL work, it got delayed by a day, but he didn't even messaged me regarding it. In fact, till now, he did not asked me any kind of favour regarding a review.

I asked him the future plans of him regarding the product & he says that, ' since, there are no other project currently, he is working on...he is fully focused on the product & keep updating it regularly in the future.'

Overall Rating: (9.0/10)

Important Note:

I no longer have access to the product as i received a review copy just for 3 days which got expired on 19.08.2021. So, please don't ask me for a free sample of the product or anything silly stuff like that.

Hope, this review will help to other HF members who are interested in the application.

Thanks,
Comrade.

zGen - August 18, 2021, 11:45 pm

Thanks mate, you can always open a contract if you are interested.

SIM-5052356 - August 19, 2021, 3:18 am

i completely understand that you want to minimise the stub size as much as possible, but an empty xls document will not lure much people into enabling macros, i recommend adding different templates in the future in order to actually phish people into enabling macros. If you want an example of what i just mentioned above, you are more than welcome to PM me and i will gladly show you a few. Good luck with sales, might try it soon.

zGen - August 19, 2021, 9:04 am

(Aug 19, 2021 03:18 AM)SIM-5052356 Wrote: [\[CITE\]](#) i completely understand that you want to minimise the stub size as much as possible, but an empty xls document will not lure much people into enabling macros, i recommend adding different templates in the future in order to actually phish people into enabling macros. Sure this feature will be added on a future update.

robzbbon - August 20, 2021, 12:37 am

I am very dmn happy I purchased this, it works just as described and is very user friendly. I also loved the ongoing customer support I received post sale, originally I purchased a month membership but I am going to upgrade to a lifetime membership thats how happy I am :)

IDK - August 20, 2021, 2:58 am

The software work as it is supposed to. It has a Clean and easy-to-use GUI at first I faced some problems while login in after I reported to zGen He helped me troubleshooting and added better error handling on the server-side, So future users don't face the same problem. He was easy to talk with and online most of the time. I received the public stub version so I wasn't able to check the UAC BYPASS. The file size is small and the file was not detected by Gmail. zGen Builder lack a bit of feature I hope zGen add Some more Template or option to select an xlsx file of our choice Because empty file look kinda sus.

zGen - August 20, 2021, 3:03 am

Yeah thanks for the bug fix we are also looking forward to creating built in template option feature but for now, customers will use their own templates until it is made!

zGen - August 22, 2021, 7:58 pm

both vouch copies have been given and reviews received, we may give one more in the near future on our latest updates but for now we will have a 5% off sale on all of our packages for the month of august

zGen - August 25, 2021, 5:42 pm

in 5 days our discount ends!

alexvenutelli7 - August 26, 2021, 11:45 am

Hello, I want to purchase this, anyone that purchased this can tell me what runtime has ? Thank you

zGen - August 26, 2021, 4:50 pm

(Aug 26, 2021 11:45 AM)alexvenutelli7 Wrote: [\[CITE\]](#) Hello, I want to purchase this, anyone that purchased this can tell me what runtime has ? Thank you
you can see on our thread it is 6 out of 23 and private stub 0

zGen - August 27, 2021, 9:21 pm

3 days before the discount 5% off ends grab while you can!

Stanley - August 29, 2021, 4:57 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

eternal101 - August 30, 2021, 7:47 am

Hello, I sent you a message on Telegram. Does the private package come an actual private stub that will be on my system or hosted on your servers? Also does this macro execute with powershell??

zGen - August 30, 2021, 2:45 pm

(Aug 30, 2021 07:47 AM)eternal101 Wrote: [\[CITE\]](#) Hello, I sent you a message on Telegram. Does the private package come an actual private stub that will be on my system or hosted on your servers? Also does this macro execute with powershell??
We have replied the telegram dm, please check.

zGen - September 2, 2021, 2:08 pm

we had left the discount to continue on for 2 days but today there is no discount as august as a month ended

zGen - September 5, 2021, 5:34 am

(Sep 4, 2021 02:00 AM)alexvenutelli7 Wrote: [\[CITE\]](#) Hello, is this for sale ?
yeah of course it is PM us through telegram or discord for more information

zGen - September 6, 2021, 12:27 pm

hey everyone we have 5% off monthly for the next 3 days

elihans25 - September 6, 2021, 10:27 pm

hello, please can i add template on the excel?

eternal101 - September 7, 2021, 5:44 pm

Has anybody used the Private version of this tool?

zGen - September 8, 2021, 5:39 pm

thanks for the honest review

zGen - September 21, 2021, 8:11 pm

hello everyone

we changed a bit the code to make your documents more secure and changed a bit the code as an update.

these are the following scans

public: <https://avcheck.net/id/Ptl2Dxm3qr8f> 4 to 5/23 runtime not WD AVAST AVIRA and other important antiviruses detected!

private: <https://avcheck.net/id/mqlo3fUZhpl5> 2/23 runtime though but 3 scantime

(Sep 22, 2021 09:15 AM)Fulya Donmez Wrote: [\[CITE\]](#) And where is the changed review? I can see the same review up there?

just as now you quoted my reply a person quoted his review before he deleted it himself as we cannot delete his comments he can only do it and he is a contracted customer (alexvenutelli7) after fixing his issues he had he deleted the comments what you saw was a quote not his review anymore

twistednerd - September 26, 2021, 7:06 am

Please can you builder make xls and not xlsx. I spread to USA and half of them already configured their email security to detect xlsx. so I'll really prefer an xls. also before u say i should convert. I have a friend who bought your macro and when he build xlsx,its usually2/ then you convert it to xls and it has 6 detections. so please if you can configure your builder to make xls. I'm very interested.

zGen - September 28, 2021, 6:58 am

zGen - October 20, 2021, 3:34 pm

fixed some bugs that existed now our app works sorry for the 30 minute downtime

needitbadly - October 22, 2021, 4:34 am

After reading the complete thread[4 pages], it looks great product, i want to buy the VIP, 1 month, but any discount on the way?

thanks

Wpple - October 27, 2021, 8:54 am

accept my discord i sent u a request

arbster90 - October 29, 2021, 8:08 pm

hey mate, I am very interested in your excel exploit as the main method I use to spread is via email. I just have a couple of questions (they may be quite stupid questions lol), I am planning to use this with a binder (which adds exclusions to WD and has a xmr miner + eth miner + fake error) does this exploit make the whole file FUD so that WD does not detect any of this? Or would I still have to make the binder + the miners FUD as well?

zGen - October 31, 2021, 6:23 pm
