Do you give us the site that allows us to send 50,000 messages for \$100?

I'm pretty interested in this, does it work on all mainstream UK phone companies? And could u make a list of what it would cost on a network by network basis (as I know some sms senders cost more to send the SMS to so thought its worth double checking!).

Thanks!

Thanks! Hi it doesn't work on any of the major carriers for UK. Potentially could for newer carriers, i've only tried the traditional o2, vodafone, EE, and three. If you want me to test the rest send me a PM.

Ahh that's a shame! Those are what most of my traffic are using (literally 90% are on the big ones). Thanks anyway, I wish you the best with your sales :(

If you find anything for UK carriers in this price range, then please drop me a message anytime. I currently pay around \$0.02-0.03 per SMS to the UK with alphanumeric sender ID so let me know if you find anything better than that and works on all the major carriers etc, thanks again.

I can say that as long as your content doesn't have flagged words, you will have 100% delivers.

What do you mean with flagged words "casino" or "bonus"?

(Aug 15, 2021 03:33 PM)Guede Wrote: [\[CITE\]](#) Hello, so I am selling a private method for SMS

marketers which essentially allows you to send up to 50,000 messages for under \$100 WITH CUSTOM sender id. Method is also scalable, and there are no shortages. You can purchase higher limits directly from the platform.

Any experienced marketer knows that SMS typically runs you between \$0.02-\$0.05/msg. This method only works for SPECIFIC CARRIERS. Works for MOST countries (check with me). Works for MOST carriers in the US (T-Mobile, Vodafone and Sprint) and Canada (Bell, Telus and Fido). Also works for France, Japan and Russia.

PRICE:

WAS \$999.99 NOW \$749.99

WILL BE RAISING BACK TO \$999.99 SOON

PM me your Telegram.

TOS: I am not responsible for anything you use this method for. Every marketer should follow the laws and regulations according to where they live.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
