Thread: [Mississippi 8th Grader Dies With COVID Hours After Gov. Reeves Downplays Child Cases](#)

The Pact - August 15, 2021, 7:16 pm

<https://www.mississippifreepress.org/14800/mississippi-8th-grader-dies-with-covid-hours-after-gov-reeves-downplays-child-cases/>

The same day a local 20-year-old young mother who died of COVID-19 was buried in the same county. "Mkayla was in the Jr. High Lion Pride Band and was an outstanding band member and student."

No doubt Crypt will say The Mississippi Free Press is a "left wing source" but this is everywhere including The Daily Mail etc... Very worrying.

Interesting that nobody is talking about this and seems to not care. But this case is just 1 of many to come especially in states like Mississippi, Texas and Florida.

My friend is now hospitalized from Covid-19. She was going to get the vaccine too but Covid-19 got to her first.

I really have to make a decision now on if I get the vaccine or not. I talked to multiple medical professionals about it.
