Thread: [MalwareBytes Lifetime Premium Keys | \\$4 each | Bulk Orders | Paypal & Crypto](#)

Jason - August 17, 2021, 12:05 pm

Information: Each key is \$4 with crypto, and \$5 for paypal(f&f).

My keys will never get cracked by some guys running OB in the background. Keys are activated on virtual machines and deactivated upon your purchase.

1 key for 1 device.

Windows OS only.

Use the Malwarebytes personal version, not the work/business one to activate the keys.

Payment methods: Crypto; BTC, LTC, or ETH. Paypal friends and family preferred.

Terms: You will receive a replacement if they key doesn't work.

I'm not responsible for what you do in the future with the key.

Bulk Orders/Resellers: Keys are available for \$2 each, but there is a minimum for purchasing those. Contact me to know it!

do these keys come from a unique origin?

Yes, they come from malwarebytes themselves, but they are no longer supported since malwarebytes 3 that's why you can't activate it on accounts, but only in the application.
