Thread: [I made \\$12K last month from \\$0 - Blackhat method mastered - Get rich and get out!](#)

Macavelii - August 18, 2021, 12:52 am

This ain't no bullshit post talking about making \$500 a day that you end up believing because it has hundreds of buyers, who wouldn't believe it hell I believed that bullshit too.

But then I found a method to make some real money, can't say that I created the method but I will tell you that I took what it was and turned it into something out of this world. Heres how much money my chime account seen last month.

Anybody can do this method starting out at \$0. It DOES NOT PERTAIN TO ANYTHING THAT GOES AGAINST THE SITE RULES!

If a mod would like to send me a message and have me clarify what it is / vouch for me I'm completely fine with that.

All that you need in order to do this method is a phone with service on it and a debit card, if you don't have one you can go to walmart and get one that works on the site we will be using, they cost like \$3. Thats it, thats all you need and you could be making 12k or more this month. This method is entirely up to you and how hard you want to hustle.

It can be done over and over and over and over again

I'm not making no damn 75 page ebook with a bunch of boring ass basic ass shit that doesn't work, if you are interested you can get at me on discord (M4caveli#3250) or telegram(@TraphouseTheo) and I will talk with you personally and explain how the shit works. Everything will be verified you wont all of a sudden get to a spot and be like ummm how? None of that. I will explain everything to you.

If you want to run the method with me so that you can see a real life example of how its gonna work, then you can learn how to do it for free but I'm keeping the money that gets made during the time period we are doing it, which wont be longer then 5 hours. After you see me do it youll be ready to get started. On the other hand if you feel like you can do it without my help after I explain the basics to you, it will be \$50 and if you don't make that back in the first 5 hours you can have your money back. But that isn't even a option here if you're really tryna win.

Contact me if anybody would like to discuss. If this post starts getting a lot of attention i'm just making it known now that I won't be showing this method to more then 10 people because I'm not gonnna saturate the market. Anyways, scared money don't make money.

Your discord being disabled doesn't matter as long as you made some money. Did you make any?

Are you serious? I was supposed to use Discord as means of communication with that individual.

My Discord got disabled as soon as I sent a friend request.

Nah I wasn't being serious haha. I just assumed the method itself had something to do with using discord in a blackhat way to make money. In that case an alt would be necessary Sorry to hear about your account btw.
