Thread: [What is the cheapest and fastest way to get a new phone number for verification codes](#)

Da_PookieMonster - August 18, 2021, 1:01 pm

Hi so I came across a few worthwhile apps (all of which only require a phone number that has not yet been registered to the app in question)

To make an easy 5-50\$ or so (well really like 20\$ or so if you are able to convince your friends and family to take the time to do it, but even more so [and by that I mean double!] If you are the one on the other end of the phone)

Now sure I could go and ask family to borrow their phone because mine just died and I was waiting for a very important phone call or whatever...

But obviously that can only go so far until I hit a wall...

So my question is this: What is the cht a new phone line or just new number (idk if you would need a new sim or what) but whatever is needed to be able to get a different number to get and confirm verification i

Using text now premium (\$5 a month) along with Google voice is a cheap and easy way to get multiple numbers.

Gear-Official - January 29, 2022, 11:54 pm

5sim is probably your best route
