Thread: [Official - Money Making Club \(Hustlers Group\) \(See Limited Application Details\)](#)

Bankrupt - August 24, 2021, 1:44 pm

?Hustler Money Making Club?

Hustler = an aggressively enterprising person; a go-getter.

Have you ever tried to make money with ebooks, online money making methods, and get rich quick schemes?

Or have you ever wondered exactly how profitable the best online money makers really can be?

Hustler is going to actively attempt to successfully gain financially from the money making methods most users would qualify as a scam without putting any thought or time into, documenting every step and how obtainable profit really is.

We will be recruiting 20 users on HF exclusively to work together carrying out various methods we individually find and vote on as a team. The top earning methods can be carried out on ones own, or we can decide if we want to pool funds to sponsor giveaways for the users involved.

Through in depth documentation we will be rating each method out of /10, and marking all the notable problems and successes of each method attempted by the crew, there will be an archive logged of methods attempted for future reference.

This will be an invite-only crew Group with a limited amount of members, we will have an application process and will remove users who do not put in the time to interact with the crew Group on specified days, although we will make sure the schedule is very flexible and negotiable.

Before applying;

- Users will be expected to be capable of using voice communications, and must be able to speak and write in English.

- Users will also be expected to be kind to each other, we predict some users may have a more difficult time following along than others, this is meant to be a community project primarily, not just us trying to make money so keep that in mind.

- Users must be able to interact for at least an hour, 1-2 times a month.

- Users will be expected to bring a method to the group when brainstorming at some point, methods will need to be gathered offsite or from personal knowledge to avoid potential leaking of HF members intellectual property.

How it works

-Users MUST remain in the crew during the duration of the event. Users will have temporary access onsite to Hustlers group for access to subforums when required. Leaving the crew will result in immediate removal from the group. (Joining this crew gives you temporary membership to the group Hustlers)

(Crew Removed)

-Some users who make this experience more enjoyable for everyone may be given free lifetime membership to Hustlers.

-these events will be at scheduled times that work best for everyone, in a perfect world you will only *need to contribute once every 2 weeks, but your more than welcome to take part in all money making schemes with the crew.

-Hustlers lifetime members have first say in joining the club, we wont start accepting applicants until there is a substantial amount of applications, failure to receive applications to join the MMC may result in terms changing

-All conversations regarding Hustler MMC will take place on site except for voice communications when executing a method

For reference, this crew allows you access to <https://hackforums.net/showthread.php?tid=6153277> (VIP Perks not included)

TLDR; We're going to try to make money together using online methods, applying for this crew you will be required to show up 1/2 times a month to work in a group setting attempting new methods, keep in mind this will be for laughs, but maybe you will find a new career for yourself in the process. Joining this crew you will also be invited to the group Hustlers, for free.

How many times have you tried to make money online, have you ever been successful?

-? Have more ongoing business ventures than most people do, all of which are/have been successful.

What do you bring to the group? (Jokes, Good attitude?, Good writer?, highlight your talents.)

-? Good memes

-? Able to articulate complex concepts in simple terms for people who don't understand. Would be able to explain methods that other people may not get.

-? A large amount of management experience with groups of people both online and irl.

-? I deal partly with fraud prevention irl so i know a lot about scam methods, so would be fun to mess around with those and see if we can tweak them a bit.

Availability (how many times a week or month are you going to be able to 100% spend atleast an hour with us)

-? Voice chat fairly limited probably only on weekends as i work from home in my office most days during the week. Text chat consistently all day/every day.

How many times have you tried to make money online, have you ever been successful?

-? Have attempted to, and successfully managed to make money online several times in the past along with many attempts that were also not so successful meaning I'm always open and weary of trying new things to make money as long as I could see it being successful or not. It's the experiences for me that are always worth it! Oh and the money!

What do you bring to the group? (Jokes, Good attitude?, Good writer?, highlight your talents.)

-? I'd like to think I would bring good vibes and motivation to the group and others, meaning I do tend to work great with others no matter the obvious differences between us. I always enjoyed working in groups of people much rather than working solo. I have usually ended up leading, or proactively paving the way for others and myself in completing certain tasks that may seem difficult at first but after breaking it down, and dividing the work amongst ourselves, have made that task seem more possible, and achievable than before. I love pushing people to accomplishing new things and working towards goals that some people may have believed they wouldn't of otherwise reached.

Availability (how many times a week or month are you going to be able to 100% spend atleast an hour with us)

-?Several times a week (anywhere from 3-6x or more)- and atleast 2-3 hours each time (or longer)

Thank You! Wish you all the best!

How many times have you tried to make money online, have you ever been successful?

-? Back in the day I used to try every different way to make money. Tried CPA, ewhoring, dropshipping, etc. Some were successful and some weren't but I have pretty much at least dabbled in mostly everything. In 2016 I got into crypto and have more or less been able to retire at 26. I would say my main method to make money is definitely off my crypto investments(and some IRL).

What do you bring to the group? (Jokes, Good attitude?, Good writer?, highlight your talents.)

-? I bring relaxed vibes, jokes, and more importantly advice on crypto/projects that people have questions or concerns about investing. The whole point is to help each other make money, right? :)

Availability (how many times a week or month are you going to be able to 100% spend atleast an hour with us)

-? Like I said I am essentially on my own time now so I really have time whenever

If you guys pick me up awesome and if not that's fine too. I'm just looking for people to interact with and who doesn't like come together and to make extra money :D.

How many times have you tried to make money online, have you ever been successful?

I don't keep track, but yes I have experienced success. Covid-19 shipping delays put a stop to my business during the initial outbreak. I will be looking to reopen soon. Aside from that I've successfully sold merch, e-books, and created the online presence of a few businesses I reached out to. My first success was monetizing, and ranking my gaming clan on the first page of Google as a little kid. It wasn't a lot of money, but if I was a couple years older it could've been bigger. Curse my smooth brain.

-?

What do you bring to the group? (Jokes, Good attitude?, Good writer?, highlight your talents.)

I possess crackhead hyper concentration. This means that I will test out methods to their full capacity. I do have writing awards from my college, and a cert to teach English, but I can't be bothered to write well outside of classes. My brain is fried you know?

-?

Availability (how many times a week or month are you going to be able to 100% spend at least an hour with us)

My schedule is all over the place so I don't know how many times I can be in calls, but I will be able to spend time on methods every day, and report my findings.

-?

ps

I don't do BH methods

How many times have you tried to make money online, have you ever been successful?

-? I've made multiple attempts at making money over the last 8 years. Some have been more profitable than others and others have been outright failures, but a learning experience none the less. I've had a mixture of blackhat and whitehat earnings, going forward I'd prefer to only do whitehat.

What do you bring to the group? (Jokes, Good attitude?, Good writer?, highlight your talents.)

-? I am able to work as part of a team and keen to help others when they need it. I'm motivated and keen to learn when it comes to making money. On top of that I like a joke and the occasional meme.

Availability (how many times a week or month are you going to be able to 100% spend atleast an hour with us)

-? I've got access to my phone pretty much all day everyday so can always be available to talk. In terms of voice chat it would need to be outwith my 9-5 obviously. Don't want my bosses picking up on my methods :D

ForBobo - September 11, 2021, 9:45 pm

Looks like a lot of chill people here so far, good to see. Anybody else interested to jump on? Should be a fun time.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I've succeed to make money online on quite a few occasions, I started off with EWing for a few months and built my way up from there, I'm now learning CFD and spreadbet trading, I'd love to be part of a group of individuals who can come together and brainstorm to make a steady income, I think the idea of going through methods together and trying all different ways to see who can make what is really interesting and something I would love to be involved in!
