Thread: [Beer brand label](#)

**Hei?eke?** - August 20, 2021, 12:34 pm

I'm in need of a beer label produced.

The label will have a "sunburst" which is soon complete (Can be designed meanwhile)  
Code Confidence sunburst:

- 1 Unit - Green - Very modest and reserved.
- 3 Units - Green - Overthinking everything!
- 5 Units - Yellow - Starting to wake up!
- 8 Units - Orange - Why not have a few more?
- 10 Units - Orange - Can't stop speaking after 10 of those!
- 15+ Units - Red - Doing whatever the F\*\*K you want.

## Legend

Confidence level:

Green - Low

Yellow- Medium

Orange - High

Red - ExtremeThe label will also have a logo, which will be sent over. the logo should do around 25-30% of the side/middle of the logo, so it will cover the "front" of the can.

Lenght: 210mm

Height: 80mm

There will be a "white area" on the right side of the label for a 76 mm × 51 mm sticker that is going on at a later stage.

The print will be on a transparent vinyl label and put on a white can.

Budget 100 USD.

Payment in crypto

After contract completed

Send me a private message if you know you have the skill requirements to create a beer brand label :)

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first

post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
