Thread: [Someone GIFTED me 10 NFT's for FREE!](#)

Lorem Ipsum - August 23, 2021, 6:16 am

As title says, someone gifted me 10 NFT's for free!

I got start-up guy who sold a few NFT's before for less than \$1 each. In approx a week they got re-sold for approximately \$100+.

I missed out on 3 of his auctions / giveaways, as I had 0 ETH at every single occasion. After a few days of chatting back and forth, he asked for my ETH address to 'drop' me 10 NFT's.

I still don't know how NFT's work really, but what I think to know;

- All my NFT's are at 1 ETH address of my Exodus wallet
- The ETH address + OpenSea address makes it possible to 'see' my NFT art
- I need to connect (according to him) preferably Firefox to Metamask to 'view & re-sell' my NFT art

Who else here owns 1 or more NFT's? How did you get them or how did that work out for you? Share your story if you like.

Thank you all for reading!

Can you add me on Discord or PM me yours?

I'd like to know a little more about how-to's if possible. If not, no issue, I'll just use YouTube when I got time.

Sounds good! Thank you.

I follow a few at Instagram who post daily tips and all that, but I need to execute some tasks myself to fully understand what the concept behind all of it, really is.

I am trying to get into NFTs as well. I just started a week ago with WAXP NFTs, looking at getting some ETH ones as well. Really wish I would have got in on the ON1 Forces drop.

I would like to buy an NFT could you perhaps tell me what the process is like?

I might help others with NFT FAQ's soon.

Still learning about the new world of investment (as I see it).

That's awesome! Some people are flipping NFT's for insane amounts. Grab your money while markets are still hot.

Thank you, but this is the beginning of an extraordinary time. No need to include "while markets are still hot", because I believe this will never leave us lives. Like Crypto, really.

Non Fungible Tokens, you should do some research on them. They are sold since 2017, maybe sooner, yet I do think it is a great time to work with them or re-sell/collect them.

I am still miles away to earn/own my first NFT.

Congratulations man !
