Thread: [Shopify Store to be made or existing Shopify Store](#)

Spotlight - August 23, 2021, 7:04 pm

Looking to either pay someone to build me a whole shopify store or looking to possibly purchase a shopify store from someone that's already running.

Let me know!

Must be someone that has plenty of experience

Let me know, your shop sells what type of products?

Would you like to accept which payment methods; credit card, PayPal, bitcoin, cashapp, etc. ?

Do you have product images and informations prepared ?

Would you like to work domestic or international ? If you will work international, which cargo companies will be available for deliver products.

Did you make deal with cargo company or companies ?

MissingKidBilly - August 24, 2021, 10:52 am

Online products or physical items ?

WHAT DO YOU GET?

Store Setup

- I will build and setup your entire store, add plugins for high ROA, add all the necessary pages such as the TOS/refund Policy/Shipping Policy and more.

Graphics Design

- For high conversions I will choose the best images and will optimize the images for SEO. I will also create/design the logo and all other images that pertain to the store. (Banners/Social Media Graphics, Icons, Footer images, etc).

Premium Theme

- Since Shopify provides only a few free themes. I will be picking through a wide selection of Premium themes to choose what best fits your store, included FOR FREE.

- Usually I will use the theme Booster Theme - 179\$ for the highest conversions.

- If you want the theme designed/coded different than how it looks I will also do that for an UP CHARGE.

SEO Optimized

- Your store will be fully SEO optimized with extensive keywords, image tags, site optimization and more. If you plan to grow your store through organic google searches than SEO is essential for growth and for a long term plan. This will boost your traffic over time and will get you ranked higher on your favorite search engine, such as Google/Bing/Yahoo/etc.

25 Days Store Maintenance

- I will provide a "Warranty" or in other words support and maintenance for your web store for 25 days in total. This includes revisions, logo edits, niche change, theme edits, plugin inclusion, and

edits.

Facebook Ads Tutorial

- Why not utilize the worlds largest social media platform to get all your sales? With years of experience with facebook ads, I will show you the tricks/tips and everything that you need to know to get your ads up and running with high conversions. I will also show you how to setup and get your ads running on facebook.

10 Winning Products Imported & Optimized

- Depending on what niche you go with, I will import 10 winning products from that Niche into your store. I will also show you examples of Facebook Ads for each of the products that are imported. The hardest part of Shopify is finding winning products, and that has already been accomplished here. All you have to do is follow the ad steps I provide and you just RUN THEM and see the profits come in.

Facebook Pixels & Google Analytics Integration

- I will integrate and implement Facebook pixels and Google analytics onto your store so you can keep track of your customers and activities. This is very useful in SEO, Targeting, and more for your Shopify success.

1 ON 1 Mentoring

- I will show and teach you about the Shopify eCommerce platform/drop shipping/print on demand, and how to use your store. We will go through the basics of Shopify to the most advanced parts of it.

The Choice Is Yours

- We let you pick if you want a drop shipping store or another type of store such as print on demand. You pick and choose, we deliver.
