Thread: [VIBE Rust servers](#)

3dg3y - August 29, 2021, 12:20 am

I am currently working on starting my own Rust server. I am coming close to getting it finished and am looking for maybe one or two staff to help me pursue this.

I have the discord setup as well so we can use that to talk so feel free to send me a message and Ill send over a way to contact me.

This will be modded rust server but only 3x and other information will be talked when contacted.

This sounds really cool. I hope everything goes well. Rust is one of my favorite games, GL!

I would be willing to help with this, my pc specs are Ryzen 9 w/ 3090 TI so 0 issues with performance.
