I'm on, it hasn't hit yet but it's about to. It's gonna suck being on the right side of it. It'll be hitting later this afternoon from what I've been hearing on the news and at night is when it's gonna be starting to go over where I'm at.

R.I.P. Baton Rouge ;(

Damn yeah you be safe too, I've got a couple generators and we were somehow able to still find gasoline to purchase last night so we'll be okay I think. It's just gonna be really really boring having

no power lol. Hopefully it just passes through quick and doesn't hang out over the area like Harvey did in Texas.

I was living at Biloxi about 4 months back, hated the area. Storms that would wake you up at 3 am in the night.

Charger - August 29, 2021, 9:23 pm

[Nachfolger](#) actually lives in Biloxi and he has no idea how to swim.

ailo - August 29, 2021, 10:04 pm

Oh wow, i wish all the people there good luck.

O T F - August 30, 2021, 2:06 am

Man, I hope everyone affected by the storm is doing okay. The footage looked insane.

L1I DuRk - August 30, 2021, 2:18 am

Haven't seen the footage yet, and hope you guys are safe.

I--I - August 30, 2021, 10:33 pm

I saw the aftermath today, looks pretty bad.

My heart goes out to those effected.

Blogger - August 30, 2021, 10:52 pm

Nope, but it looks really bad. It's supposed to hit the bottom of Illinois, which is where I currently live, but I'm nowhere near there. The weather has been pretty bad but nothing too alarming. The usual storm, thunder, lightning, hail, etc. Be careful out there!

Nate - August 30, 2021, 11:39 pm

I saw some news coverage of it when it hit, it looked fucking intense man.
I heard only 1 casualty too wtf

dave soiutig - August 31, 2021, 5:12 am

Fun fact, more people die in storms named after females as they don't think it'll be as serious, when in reality when a woman blows through your life you end up on the streets with only your dog to keep you company and your house and car and kids have disappeared.

Zero - August 31, 2021, 11:21 am

Stay safe my friends.

I'm actually providing a service for the civil air patrol to process the images they're taking, modeling them and creating maps of the areas automatically as fast as possible.

gonnalearntoday - September 1, 2021, 9:42 pm
