Hi there. Nice to meet another Dane here.

Anyhow, I would say there is too much delay on the transitions, it was almost like there was no content for a few sec.

Hmm... Sorry, will try and fix it. It isn't my design btw! i bought it off code canyon, and changed some stuff.

Regards Scientia.

PS: Your welcome to send me a dm, I'm intrigue to meet another dane in this world!

Did you fix the delay already? Cause it feels smooth on my computer, and before it was on phone, so it could be that it's just a issue with the low speed on the phone network.

Anyhow, I will send you a PM in a sec.

It's a good start. I'd use that for my own website to be fair.
