Raw Spoilers ([Click to View](#)) HOLY SHIY Dude I am so hyped for the next coming episodes, I mean I knew this was going to happen but damn it's so exhilarating to actually see it drawn. Did not expect bitch to get her powers back post death, can't wait to read the explanation.

[Happeh](#) You need to catch up so I have someone to share the hype with.

I actually did some more reading today. It's getting better and take back what I said about the artwork being a little raw. During the hotel game (where they had to find friends to gain "rooms" for a win) the art felt a little choppy and not too great, but just recently its pro-level quality. Was surprised at the jump up.

Yeah his art is something I love, you can really see his improvement, season 3 is crazy beautiful.

The chapters are so long it's hard to, SIU puts in so much work.

Yeah, one of the things that surprised me were the girthy-ness of each chapter. It's nice as a reader because it means more content, but I don't envy the workload he puts on himself.

He is by himself too, doesn't hire artists which he should.

Stop drinking, it's not good for your state of mind and/or liver. Teetotal all the way.
