Happy Rosh Hashanah bros!

Goku - September 7, 2021, 11:10 am

Happy whatever you are celebrating my bro hehe

The drop was expected, since the drastic upwards movement.

xHeaven - September 7, 2021, 11:14 am

Happy whatever you are celebrating.

As Goku said above as well, the drop was expected. A lot of coins went hyperbola and it had to correct, also the drop was expected based on historical data as well.

My thoughts are that it's sad to see red but my conclusion is that I keep doing what I do which is DCA Bitcoin and throw money on shitcoins which can make me rich (Shitcoins such as everything except #1)

xVulnerable - September 7, 2021, 11:53 pm

I sold 30% of my portfolio so I can buy the dip. Expect it to dip more, maybe to the 30k ish.

BaldCunt - September 8, 2021, 12:39 am
