Thread: [LDPLAYER Emulator with Proxifier](#)

**Emiliano999** - September 8, 2021, 2:38 pm

Hello comrads, I need a bit of a help, I can't make my proxifier work with LDplayer, could you give me a quick tutorial which .exes do I have to put in to make it work? Just putting LDplayer.exe does not give access to proxies on ldplayer with proxifier. Thank you.

Use proxy rotate ip socket5

Set exe vboxDHC.exe ld9headless.exe vboxnetnet.exe ...
